KLUG's expertise

With over 150 years of experience, KLUG-CONSERVATION has developed the know-how to produce premium quality products, ensuring maximum permanency for the long-term preservation of cultural assets and modern data carriers for archives, museums, libraries and picture framers. KLUG-CONSERVATION's core area of expertise is the preservation of tangible cultural heritage. An appropriate preservation method respects and preserves, at all times, the intangible value of the cultural artefact.

The close collaboration with clients and cooperation with the paper industry, research institutes, academies and universities promotes the development of improved or innovative new products. This is essential for maintaining a consistently high quality standard, as well as keeping up-to-date with latest developments in the conservation field. This enables us to provide you with the finest products, economical solutions and technical competency which we would like to share with you in our "Technical Knowledge Folders".

If you have any queries, our team of specialists are happy to assist and advise.

Michael Kuehner   Peter Lang

Information with effect from December 2023

Quality guarantee

KLUG-CONSERVATION consequently manufactures their ageing resistant paper and board products in accordance with strictly set conservation and preservation regulations and to internationally recognized standards.

We provide each product with a legal binding guarantee certificate on the technological basis of the EN ISO 9706 and ISO 16245 standards. Products made for photographic archival storage have also passed the Photographic Activity Test (PAT).

Each of our products is supplied with a quality guarantee certificate, which legally covers far more than the normal warranty terms, ensuring that the material used meets the requirements for ageing resistance.

For you as our valued customer that means, regardless of any individual tests and results, such as those from independent institutes, e.g. "The Paper Technological Foundation (PTS)", the quality of the product we have supplied strictly meets the requirements stated in the "Quality Guarantee Certificate".

Infinite solutions …

You can take your pick from our standard range of products, which are based on the modular design concept, or you can choose to let us create a product custom-made for you. You have the idea, we create the solution!

In the case that the product you require is not available in our standard range or all combination possibilities have been exhausted, you can choose to let us develop, together with you, an item that uniquely caters to your preservation requirements. By exclusively using our guaranteed ageing-resistant paper and board materials as a base, we are able to make your unconventional, creative ideas a reality – from a prototype up to large scale production. It will be our pleasure to assist you.

- **Standard assortment:** Products available ex-stock or at short notice (products in this catalogue)
- **Modular design concept:** If you are unable to find the required product in our standard range of products, our modular-based inventory allows for a variety of combination possibilities (e.g. colour, thickness, size, etc.) – Please feel free to make use of our online configurators.
- **Custom-made:** We will create, keeping in mind your ideas, a specialized product that uniquely caters to your requirements. Please do not hesitate to contact us: we will gladly advise you.

Service benefits

Advisory service

- Free examination of your artwork collection (inventory)
- Free development of your preservation project
- Complete handling of your preservation project
Measurement

- Free provision of a measuring device to allow quick and precise measurement of two-dimensional (e.g. graphic art, photographs etc.) and three-dimensional (e.g. books, files etc.) objects
- Measurement of the dimensions of objects as well as signatures and titles to the nearest millimetre

Cutting

- Sizes with plus tolerance – max. ± 7 mm
- Rough cuts of formats for most product free of charge, for orders of more than 1 sales unit (formats can be divided into halves, thirds, quarters, sixths, eighths or ninths)
- Fine cuts (e.g. 4-sided angular cut), special and customised formats on request
- Mount cutting service
Lamination

- Individual custom-made lamination (modular concept)
- Various board thicknesses available
- Special colours on request

Packaging

- Individual packaging units on request
- Ream packaging in paper or plastic bags
- Packaging of individual product combinations on request (e.g. box filled with envelopes etc.)

Tolerances

The following production tolerances are to be taken into consideration:

- Quantity tolerance for paper
  ± 3% however a minimum of ± 5 sheets per quantity unit
- Quantity tolerance for board, corrugated board
  ± 3%
- Quantity tolerance for enclosures, folders, boxes
  ± 8%
- Weight (grammage) tolerance
  ± 7%
- Thickness (calliper) tolerance
  Paper and board up to 300 gsm ± 10%, board > 300 gsm ± 5%, corrugated board ± 8%
- Dimensional (size) tolerance for paper and board material
  Sizes with plus tolerance – max. ± 7 mm, cutting tolerance 4-sided angular cut ± 2 mm
- Dimensional (size) tolerance for corrugated board
  Cutting tolerance ± 3 mm
- Dimensional (size) tolerance for reeled paper
  Roll width ± 5 mm, running metres ± 3%
- Dimensional (size) tolerance for enclosures, folders, boxes
  Plus tolerance up to 5%
- Dimensional (size) tolerance for envelope enclosures
  Angle tolerance ± 2 mm, format (size) tolerance ± 3 mm
- Dimensional (size) tolerance for tubes
  Diameter and tube wall thickness ± 0.3 mm, lengths ± 10 mm
- Tolerance perpendicularity in case of cuttings with 4-sided angular cut
  Angle tolerance 0.6% however a minimum of 3mm for 1m length
- Planarity tolerance for corrugated board
  Planarity (flatness) tolerance ± 15 mm for 1m length
- Spots (fibre residues and pulp impurities)
  Spots with a diameter of less than 0.4 mm are considered insignificant. Mounting board standard specifications stipulate that maximum two spots up to 0.9 mm in diameter each are acceptable per m²
- pH tolerance
  ± 0.5 variation on the pH scale (pH 7, pH 6.5 and 7.5 are also permitted)

Deviating tolerances are to be agreed upon separately.

1. Boards

1.1 Mounting boards
H Variety – white

An economically priced mounting board for conservation-quality picture framing, mounting, displays and exhibits. Top surface available in various white shades with high light-fastness, surface structure vellum or ribbed. Base board in white.

Cuttings: Rough cuts of formats free of charge for orders > 1 sales unit (formats can be divided into halves, thirds, quarters, sixths, eighths or ninths), other sizes on request.

Please note: The illustrated top surface colours and structures match the actual products approximately. For exact colour and surface structure please request for single samples.

Item	Thickness (mm)	Size (cm)	Weight (gsm)	Shts./unit	Colour (top surface in white shades/base board white)

014163	✓	0.9	100 x 140	880	25	chamois
014164	✓	1.2	100 x 140	1180	10	chamois
014166	✓	1.8	100 x 140	1780	10	chamois

1.2 Conservation boards
048 – light grey
A compact and sturdy light grey solid colour (dyed throughout) conservation-quality board with a specially treated top surface, dirt-resistant, erasable and rub-proof (dry wiping). Excellent diagonal cutting characteristics, ideal for conservation-quality picture framing and mounting. The board is manufactured without optical brightening agents and has passed the Photographic Activity Test (PAT) in accordance with ISO 18916.

Cuttings: Rough cuts of formats free of charge for orders > 1 sales unit (formats can be divided into halves, thirds, quarters, sixths, eighths or ninths), other sizes on request.

Item	Thickness (mm)	Size (cm)	Weight (gsm)	Shts./unit	Colour
048075/7	0.75	125 x 146	780	10	light grey
04815/7	1.5	124 x 144	1590	7	light grey

Shts. = sheets ; unit = sales unit ; [1] cuttings to size extra cost ; [2] cuttings are not possible ; [3] without 4-sided angular cut ; [4] each sales unit packed separately in brown packing paper ; [5] extra cost for freight and packaging ; [6] sold only per complete sales unit ; *ES* = lamination of multiple-ply board with an emission-free adhesive

1. Boards

1.2 Conservation boards
050 – black

A compact and very hard, black coloured (dyed throughout) board ideal for conservation-quality picture framing and mounting. The board has high abrasion resistance and is extremely light-fast (approx. 7 – 8 in accordance with the wool scale). The board is dyed evenly solid black and has passed the Photographic Activity Test (PAT) in accordance with ISO 18916.

Cuttings: Rough cuts of formats free of charge for orders > 1 sales unit (formats can be divided into halves, thirds, quarters, sixths, eighths or ninths), other sizes on request.

Item	Thickness (mm)	Size (cm)	Weight (gsm)	Shts./unit	Colour
050050	0.5	80 x 120	360	40	black
05015/4	1.5	80 x 120	1130	20	black
05025/4	2.5	80 x 120	1900	10	black
05030/4	3.0	80 x 120	2200	10	black

1.3 Backing boards
07 – natural white/grey-blue and grey-blue/white/grey-blue

An economically priced backing board in natural white/grey-blue and grey-blue/white/grey-blue, specially developed for conservation-quality picture framing and mounting. The board is free of optical brightening agents and has passed the Photographic Activity Test (PAT) in accordance with ISO 18916.

Cuttings: Rough cuts of formats free of charge for orders > 1 sales unit (formats can be divided into halves, thirds, quarters, sixths, eighths or ninths), other sizes on request.

Item	Thickness (mm)	Size (cm)	Weight (gsm)	Shts./unit	Colour
0747270	2.7	101 x 141	1810	5	natural white/grey-blue
074477270	2.7	101 x 141	1810	5	grey-blue/white/grey-blue

Shts. = sheets ; unit = sales unit ; [1] cuttings to size extra cost ; [2] cuttings are not possible ; [3] without 4-sided angular cut ; [4] each sales unit packed separately in brown packing paper ; [5] extra cost for freight and packaging ; [6] sold only per complete sales unit

1. Boards

1.4 Archival boards

047 – grey.blue
A grey-blue, solid colour (dyed throughout) board with a specially treated top surface, dirt-resistant, erasable and rub-proof (dry wiping). Excellent grooving/creasing characteristics due to high long-fibre content. The board is free of optical brightening agents and has passed the Photographic Activity Test (PAT) in accordance with ISO 18916.

Cuttings: Rough cuts of formats free of charge for orders > 1 sales unit (formats can be divided into halves, thirds, quarters, sixths, eighths or ninths), other sizes on request.

Item	Weight (gsm)	Size (cm)	Thickness (mm)	Grain	Shts./unit	Colour

04733	330	100 x 140	0.35	long grain	25	grey-blue
047450	450	100 x 140	0.48	long grain	25	grey-blue

Shts. = sheets ; unit = sales unit ; [1] cuttings to size extra cost ; [2] cuttings are not possible ; [3] without 4-sided angular cut ; [4] each sales unit packed separately in brown packing paper ; [5] extra cost for freight and packaging ; [6] sold only per complete sales unit ; *ES* = lamination of multiple-ply board with an emission-free adhesive

1. Boards

1.4 Archival boards

04799 – grey-blue/natural white (boxboard)

Archival board, grey-blue/natural white with a soft core and specially treated top surface, dirt-resistant, erasable and rub-proof. Excellent grooving and punching characteristics due to balanced transverse-longitudinal grain direction and high long-fibre content. Ideal as boxboard material for the manufacture of archival folders and boxes of high material thicknesses. The board is OBA-free and has passed the Photographic Activity Test (PAT) in accordance with ISO 18916.

Cuttings: Rough cuts of formats free of charge for orders > 1 sales unit, other sizes on request.

Item	Thickness (mm)	Size (cm)	Weight (gsm)	Shts./unit	Colour
04799065/4	0.7	104 x 147.3	550	20	grey-blue/natural white

04823	530	100 x 140	0.55	long grain	25	light grey

A light grey, solid colour (dyed throughout) board with a specially treated top surface, dirt-resistant, erasable and rub-proof (dry wiping). Excellent grooving/creasing characteristics due to high long-fibre content.

The board is free of optical brightening gents and has passed the Photographic Activity Test (PAT) in accordance with ISO 18916.

Cuttings: Rough cuts of formats free of charge for orders > 1 sales unit (formats can be divided into halves, thirds, quarters, sixths, eighths or ninths), other sizes on request.
Shts. = sheets ; unit = sales unit ; [1] cuttings to size extra cost ; [2] cuttings are not possible ; [3] without 4-sided angular cut ; [4] each sales unit packed separately in brown packing paper ; [5] extra cost for freight and packaging ; [6] sold only per complete sales unit

1. Boards

1.4 Archival boards
049 – beige-taupe

A beige-taupe, solid colour (dyed throughout) board with a specially treated top surface, dirt-resistant, erasable and rub-proof (dry wiping). Excellent grooving characteristic due to high long-fibre content. The board is free of optical brightening agents and has passed the Photographic Activity Test (PAT) in accordance with ISO 18916.

Cuttings: Rough cuts of formats free of charge for orders > 1 sales unit (formats can be divided into halves, thirds, quarters, sixths, eighths or ninths), other sizes on request.

Item	Weight (gsm)	Size (cm)	Thickness (mm)	Grain	Shts./unit	Colour
049/170SB	170	80 x 120	0.2	long grain	125	beige-taupe
049/170BB	170	120 x 80	0.2	short grain	125	beige-taupe

1.5 Photographic archival boards
89 – natural white, without an alkaline buffer

A natural white, solid colour (dyed throughout) photographic archival board without an alkaline buffer, and with a pH of 7.0. Suitable for conservation-quality picture framing and mounting, and for the presentation of photographs and other kinds of photographic material. The board is free of optical brightening agents and has passed the Photographic Activity Test (PAT) in accordance with ISO 18916.

Cuttings: Rough cuts of formats free of charge for orders > 1 sales unit (formats can be divided into halves, thirds, quarters, sixths, eighths or ninths), other sizes on request.

Item	Thickness (mm)	Size (cm)	Weight (gsm)	Shts./unit	Colour
89054	0.5	101 x 141	350	50	natural white
89101	1.0	100 x 140	720	25	natural white
89151	1.5	100 x 140	1100	10	natural white
89201	2.0	100 x 140	1480	10	natural white

Shts. = sheets ; unit = sales unit ; [1] cuttings to size extra cost ; [2] cuttings are not possible ; [3] without 4-sided angular cut ; [4] each sales unit packed separately in brown packing paper ; [5] extra cost for freight and packaging ; [6] sold only per complete sales unit

1. Boards

1.6 Blotting boards
040 – natural white
A highly absorbent, acid-free and soft-textured fleece board with good wet-strength and a high cotton fibre content, suitable for preservation and archival storage purposes. The board is pH-neutral, and is manufactured without an alkaline buffer (unbuffered) and without the use of optical brightening agents.

Please note: Cuttings are not possible.

Item	Thickness (mm)	Size [2] (cm)	Weight (gsm)	Shts./unit	Colour
04001	1.0	70 x 100	350	50	natural white
04006	1.0	100 x 140	350	25	natural white
040591	1.8	70 x 100	670	20	natural white
04059	1.8	100 x 140	670	20	natural white

Shts. = sheets ; unit = sales unit ; [1] cuttings to size extra cost ; [2] cuttings are not possible ; [3] without 4-sided angular cut ; [4] each sales unit packed separately in brown packing paper ; [5] extra cost for freight and packaging ; [6] sold only per complete sales unit

1.7 Mount configurator

Custom-made mounts

Based on our modular design concept you can configure your own individual mount. Our inventory allows for a variety of combination possibilities. You will find the configurator at klug-conservation.com > Products > Configuration > Mount configurator

Mat configurator

2. Corrugated Boards

2.1 Corrugated boards
F 1.1 mm

Corrugated board made from ageing-resistant material, overall thickness 1.1 mm, natural white in colour. Top ply made from grey-blue archival board, 190 gsm, surface specially treated, dirt-resistant, erasable and rub-proof (dry wiping). Each individual ply is glued moisture-proof. The board is ageing-resistant in accordance with the EN ISO 9706 standard and meets the material requirements of the DIN ISO 16245 – Type A. Base material used for making KLUG boxes and folders.

Item	Thickness (mm)	Size [1] (cm)	Weight top ply (gsm)	Total weight (gsm)	Shts./unit	Colour
011647	1.1	120 x 180	190	515	20	grey-blue/natural white

2.1 Corrugated boards
MW 1.6 mm

Corrugated board made from ageing-resistant material, overall thickness 1.6 mm, natural white in colour. Top ply made from archival board light grey. Each individual ply is glued moisture-proof. The board is ageing-resistant in accordance with the EN ISO 9706 standard and meets the material requirements of the DIN ISO 16245 – Type A. Base material used for making KLUG boxes and folders.

Item	Thickness (mm)	Size [1] (cm)	Weight top ply (gsm)	Total weight (gsm)	Shts./unit	Colour
021104	1.6	100 x 172	190	560	25	light grey/natural white
021105	1.6	110 x 172	190	560	25	light grey/natural white

Shts. = sheets ; unit = sales unit ; [1] cuttings to size extra cost ; [2] cuttings are not possible ; [3] without 4-sided angular cut ; [4] each sales unit packed separately in brown packing paper ; [5] extra cost for freight and packaging ; [6] sold only per complete sales unit

2. Corrugated Boards

2.1 Corrugated boards
MW 1.65 mm

Corrugated board made from ageing-resistant material, overall thickness 1.65 mm, natural white in colour. Top ply made from grey-blue archival board, 190 gsm, surface specially treated, dirt-resistant, erasable and rub-proof (dry wiping). Each individual ply is glued moisture-proof. The board is ageing-resistant in accordance with the EN ISO 9706 standard and meets the material requirements of the DIN ISO 16245 – Type A. Base material used for making KLUG boxes and folders.

Item	Thickness (mm)	Size [1] (cm)	Weight top ply (gsm)	Total weight (gsm)	Shts./unit	Colour
02110447	1.65	100 x 172	190	560	25	grey-blue/natural white
02110547	1.65	110 x 172	190	560	25	grey-blue/natural white

2.1 Corrugated boards
MW 1.7 mm

Corrugated board made from ageing-resistant material, overall thickness 1.7 mm, natural white in colour. Top ply made from grey-blue archival board, 300 gsm, surface specially treated, dirt-resistant, erasable and rub-proof (dry wiping). Each individual ply is glued moisture-proof. The board is ageing-resistant in accordance with the EN ISO 9706 standard and meets the material requirements of the DIN ISO 16245 – Type A. Base material used for making KLUG boxes and folders.

Item	Thickness (mm)	Size [1] (cm)	Weight top ply (gsm)	Total weight (gsm)	Shts./unit	Colour
021147	1.7	100 x 172	300	680	20	grey-blue/natural white
021247	1.7	110 x 172	300	680	20	grey-blue/natural white
0211091	1.7	245 x 180 [5]	300	680	10	grey-blue/natural white

Shts. = sheets ; unit = sales unit ; [1] cuttings to size extra cost ; [2] cuttings are not possible ; [3] without 4-sided angular cut ; [4] each sales unit packed separately in brown packing paper ; [5] extra cost for freight and packaging ; [6] sold only per complete sales unit
2. Corrugated Boards

2.1 Corrugated boards
MW 1.8 mm

Corrugated board made from ageing-resistant material, overall thickness 1.8 mm, natural white in colour. Top ply laminated with light grey archival board (048), 300 gsm, surface specially treated, dirt-resistant, erasable and rub-proof (dry wiping). The board is ageing-resistant in accordance with the EN ISO 9706 standard and meets the material requirements of the DIN ISO 16245 – Type A. Base material used for making KLUG boxes and folders.

Item	Thickness (mm)	Size [1] (cm)	Weight top ply (gsm)	Total weight (gsm)	Shts./unit	Colour
021148	1.8	100 x 172	300	730	20	light grey/natural white

2.1 Corrugated boards
FW 3.0 mm
Corrugated board made from ageing-resistant material, overall thickness 3.0 mm, natural white in colour. Top ply made from archival board light grey. Each individual ply is glued moisture-proof (wet-strengthened). The board is ageing-resistant in accordance with the EN ISO 9706 standard and meets the material requirements of the DIN ISO 16245 – Type A. Base material used for making KLUG boxes and folders.
Item	Thickness (mm)	Size [1] (cm)	Weight top ply (gsm)	Total weight (gsm)	Shts./unit	Colour
031104	3.0	100 x 172	190	570	20	light grey/natural white
031105	3.0	110 x 172	190	570	20	light grey/natural white
031106	3.0	215 x 165 [5]	190	570	15	light grey/natural white
031107	3.0	180 x 245 [5]	190	570	10	light grey/natural white

Shts. = sheets ; unit = sales unit ; [1] cuttings to size extra cost ; [2] cuttings are not possible ; [3] without 4-sided angular cut ; [4] each sales unit packed separately in brown packing paper ; [5] extra cost for freight and packaging ; [6] sold only per complete sales unit
2. Corrugated Boards

2.1 Corrugated boards
FW 3.1 mm

Corrugated board made from ageing-resistant material, overall thickness 3.1 mm, natural white in colour. Top ply made from grey-blue coloured archival board, 300 gsm or laminated with light grey (048) archival paper, 130 gsm. Surface specially treated, dirt-resistant, erasable and rub-proof (dry wiping). Each individual ply is glued moisture-proof (wet-strengthened). The board is ageing-resistant in accordance with the EN ISO 9706 standard and meets the material requirements of the DIN ISO 16245 – Type A. Base material used for making KLUG boxes and folders.
Item	Thickness (mm)	Size [1] (cm)	Weight top ply (gsm)	Total weight (gsm)	Shts./unit	Colour
031147 *	3.1	100 x 172	300	680	20	grey-blue/natural white
03147107 *	3.1	180 x 245 [5]	300	680	5	grey-blue/natural white
031148	3.1	100 x 172	130	740	20	light grey/natural white

2.1 Corrugated boards
EF 2.7 mm

Double corrugated board made of ageing-resistant material, natural white in colour. Flute thicknesses 1.6 and 1.1 mm, overall thickness 2.7 mm. The board possesses very good planarity (flatness), easy processing characteristics, is breathable and ageing-resistant in accordance with the EN ISO 9706 standard. Base material used for making KLUG boxes and folders and suitable as backing boards for conservation-quality picture framing.

Item	Thickness (mm)	Size [1] (cm)	Weight top ply (gsm)	Total weight (gsm)	Shts./unit	Colour
0211103	2.7	90 x 120	190	900	10	natural white/natural white

Shts. = sheets ; unit = sales unit ; [1] cuttings to size extra cost ; [2] cuttings are not possible ; [3] without 4-sided angular cut ; [4] each sales unit packed separately in brown packing paper ; [5] extra cost for freight and packaging ; [6] sold only per complete sales unit
2. Corrugated Boards

2.1 Corrugated boards
EF 3.0 mm

Double corrugated board made of ageing-resistant material, natural white in colour. Flute thicknesses 1.6 and 1.1 mm, overall thickness 3.0 mm. Top ply made from conservation board, natural white, weight 365 gsm. The board possesses very good planarity (flatness), easy processing characteristics, is breathable and ageing-resisitant in accordance with the EN ISO 9706 standard. Ideal as backing boards for conservation-quality picture framing.

Item	Thickness (mm)	Size [1] (cm)	Weight top ply (gsm)	Total weight (gsm)	Shts./unit	Colour
0211117	3.0	90 x 120	365	1100	10	natural white/offwhite
02111178	3.0	100 x 140	365	1100	10	natural white/offwhite
02111170	3.0	180 x 220 [5]	365	1100	3 [4]	natural white/offwhite

2.1 Corrugated boards
EB 4.5 mm
Double wall corrugated board made from ageing-resistant material, natural white in colour. Flute thicknesses 3.0 and 1.5 mm, overall thickness 4.5 mm. Top ply printed light grey. The board possesses very good planarity (flatness), easy processing characteristics, is breathable and ageing-resisitant in accordance with the EN ISO 9706 standard. Base material used for making KLUG boxes and folders and suitable as backing boards for conservation-quality picture framing.

Item	Thickness (mm)	Size [1] (cm)	Weight top ply (gsm)	Total weight (gsm)	Shts./unit	Colour
021-031	4.5	100 x 172	190	940	10	light grey/natural white
021-0315	4.5	110 x 172	190	940	10	light grey/natural white

Shts. = sheets ; unit = sales unit ; [1] cuttings to size extra cost ; [2] cuttings are not possible ; [3] without 4-sided angular cut ; [4] each sales unit packed separately in brown packing paper ; [5] extra cost for freight and packaging ; [6] sold only per complete sales unit

2. Corrugated Boards

2.1 Corrugated boards
EB 5.0 mm

Double wall corrugated board made from ageing-resistant material, natural white in colour. Flute thicknesses 3.0 and 1.5 mm, overall thickness 5.0 mm. Top ply made from 365 gsm conservation board, natural white. The board possesses very good planarity (flatness), easy processing characteristics, is breathable and ageing-resisitant in accordance with the EN ISO 9706 standard. Base material used for making KLUG boxes and folders and suitable as backing boards for conservation-quality picture framing.

Item	Thickness (mm)	Size [1] (cm)	Weight top ply (gsm)	Total weight (gsm)	Shts./unit	Colour
02131176	5.0	180 x 120	365	1160	10	natural white/offwhite

2.1 Corrugated boards
BC 6.4 mm

Double wall corrugated board made from ageing-resistant material, natural white in colour. Flute thicknesses 3.0 and 3.4 mm, overall thickness 6.4 mm. Top ply made from archival board light grey. Each individual ply is glued moisture-proof. The board is ageing-resisitant in accordance with the EN ISO 9706 standard. Base material used for making KLUG boxes and folders and suitable as backing boards for conservation-quality picture framing.

Item	Thickness (mm)	Size [1] (cm)	Weight top ply (gsm)	Total weight (gsm)	Shts./unit	Colour
0314107	6.4	246 x 180 [5]	190	960	5	light grey/natural white

Shts. = sheets ; unit = sales unit ; [1] cuttings to size extra cost ; [2] cuttings are not possible ; [3] without 4-sided angular cut ; [4] each sales unit packed separately in brown packing paper ; [5] extra cost for freight and packaging ; [6] sold only per complete sales unit

2. Corrugated Boards

2.1 Corrugated boards
EBB 8.0 mm

Triple wall corrugated board made from ageing-resistant material, natural white in colour. Flutes thicknesses 3.0, 1.5 and 3.0 mm. Top ply made from conservation board, natural whiter, weight 365 gsm, overall board thickness 8.0 mm. Flutes in cross-wise direction (cross-laminated). The board possesses very good planarity (flatness), easy processing characteristics, is breathable and ageing-resisitant in accordance with the EN ISO 9706 standard. Suitable as backing boards for conservation-quality picture framing.

Item	Thickness (mm)	Size [1] (cm)	Weight top ply (gsm)	Total weight (gsm)	Shts./unit	Colour
0213131176	8.0	120 x 180	365	1735	5	natural white/offwhite

Shts. = sheets ; unit = sales unit ; [1] cuttings to size extra cost ; [2] cuttings are not possible ; [3] without 4-sided angular cut ; [4] each sales unit packed separately in brown packing paper ; [5] extra cost for freight and packaging ; [6] sold only per complete sales unit

3. Honeycomb Panels

3.1 Honeycomb panels
071 – natural white

Honeycomb panels made of ageing-resistant material in accordance with the EN ISO 9706. Very suitable as backing boards to support large works of art such as graphics, placards, textiles, paintings and wallpapers. The panels are manufactured without using optical brightening agents and have passed the Photographic Activity Test (PAT) in accordance with ISO 18916.

Item	Thickness (mm)	Size [1] (cm)	Weight (gsm)	Shts./unit [5]	Colour
071314	13.0	125 x 140	1350	10	natural white
0711134	13.0	140 x 250	1350	5	natural white

3.1 Honeycomb panels
079 – natural white, with wave structure

Honeycomb panels of 8.0 mm thicknesss, with wave structure, made of ageing-resistant material in accordance with the EN ISO 9706. Very suitable as backing boards to support large works of art such as graphics, placards, textiles, paintings and wallpapers. The panels are manufactured without using optical brightening agents and have passed the Photographic Activity Test (PAT) in accordance with ISO 18916.

Item	Thickness (mm)	Size [1] (cm)	Weight (gsm)	Shts./unit [5]	Colour
0798126200	8.0	126 x 200	1280	5	natural white

Shts. = sheets ; unit = sales unit ; [1] cuttings to size extra cost ; [2] cuttings are not possible ; [3] without 4-sided angular cut ; [4] each sales unit packed separately in brown packing paper ; [5] extra cost for freight and packaging ; [6] sold only per complete sales unit

4. Paper

4.1 Archival paper
047 – grey-blue / 048 – light grey

Ageing resistant, solid coloured archival paper sheets – suitable for the usage as interleaving sheets in files and folders. Due to special surface treatment dirt-resistant, erasable and rub-proof (dry wiping). The paper possesses excellent light-fastness.

Cuttings: Rough cuts of formats free of charge for orders > 1 sales unit (formats can be divided into halves, thirds, quarters, sixths, eighths or ninths), other sizes on request.

Item	Weight (gsm)	Size (cm)	Thickness (mm)	Grain	Shts./unit	Colour
047/130	130	101 x 173	0.15	long grain	100	grey-blue
048/130	130	101 x 173	0.15	long grain	100	light grey

4.1 Archival paper
047 – grey-blue archival paper on reels

Ageing-resistant, solid grey-blue archival paper rolled on reels – suitable for the usage as interleaving sheets in files and folders. Due to special surface treatment dirt-resistant, erasable and rub-proof (dry wiping). The paper possesses excellent light-fastness.

Delivery: Packed in a box made of corrugated board, weight/reel approximately 24 kg.

Item	Weight (gsm)	Thickness (mm)	Reel width [2] (cm)	Running metres (m)	Reel/unit	Colour
04713	130	0.15	120	150	1	grey-blue

Shts. = sheets ; unit = sales unit ; [1] cuttings to size extra cost ; [2] cuttings are not possible ; [3] without 4-sided angular cut ; [4] each sales unit packed separately in brown packing paper ; [5] extra cost for freight and packaging ; [6] sold only per complete sales unit

4.2 Museum Paper

light white – with an alkaline buffer

Ageing resistant, white coloured museum and photographic archival paper with an alkaline buffer, suitable as photocopy paper, for wrapping, separating and as interleaving sheets in folders, spans, files and binders. The paper has passed the Photographic Activity Test (PAT) in accordance with the ISO 18916 norm.

Cuttings: Rough cuts of formats free of charge for orders > 1 sales unit (formats can be divided into halves, thirds, quarters, sixths, eighths or ninths), other sizes on request.

4.2 Museum paper

coloured – with an alkaline buffer

Coloured, ageing-resistant museum paper with an alkaline reserve offering maximum permanency. Suitable as photocopy paper and as interleaving sheets in folders, spans, files and binders.

Cuttings: Rough cuts of formats free of charge for orders > 1 sales unit (formats can be divided into halves, thirds, quarters, sixths, eighths or ninths), other sizes on request.
Please note: The illustrated surface colours and structures approximately match the actual products. For exact colour and surface structure please request for a sample.

4. Paper

4.3 Photographic archival paper
natural white – without an alkaline buffer

Natural white coloured photographic archival paper without an alkaline buffer and with a pH of 7.0. The paper is acid-free, manufactured without optical brightening agents and is suitable for the archival storage of photographs, aquarell paintings, graphics and textiles.
The paper has passed the Photographic Activity Test (PAT) in accordance with ISO 18916.
Cuttings: Rough cuts of formats free of charge for orders > 1 sales unit (formats can be divided into halves, thirds, quarters, sixths, eighths or ninths), other sizes on request.

Item	Weight (gsm)	Size (cm)	Thickness (mm)	Shts./unit	Colour
8102445	45	121 x 91 [2]	0.05	250 [4] [6]	natural white

Shts. = sheets ; unit = sales unit ; [1] cuttings to size extra cost ; [2] cuttings are not possible ; [3] without 4-sided angular cut ; [4] each sales unit packed separately in brown packing paper ; [5] extra cost for freight and packaging ; [6] sold only per complete sales unit

4.4 Japanese paper
Japanese paper – sheets

Japanese paper sheets without an alkaline buffer, weight 9.0 gsm, machine glazed single-sided. Suitable as interleaving sheets for archiving, conservation and preservation purposes – for example to laminate objects, repair cracks and fissures and also to mount objects such as graphics and photographs etc. Manufactured from long-fibred cellulose (Abaca/Manila hemp, bleached/totally chlorine-free) and without the use of optical brightening agents.

Item	Weight (gsm)	Size [2] (cm)	pH value	Shts./unit [4] [6]	Colour
010096191	9.0	61 x 91	7.0	500	white

4.4 Japanese paper
Japanese paper – on reels
Japanese paper without an alkaline buffer, rolled on small reels, weight 9.0 gsm, width 2 or 3 cm, reel length 150 m. Suitable as interleaving sheets for archiving, conservation and preservation purposes – for example to laminate objects, to repair cracks and fissures and also to mount objects such as graphics and photographs etc. Manufactured from long-fibred cellulose (Abaca/Manila hemp, bleached/totally chlorine-free) and without the use of optical brightening agents.

Item	Weight (gsm)	Reel width [2] (cm)	Running metres (m)	pH value	Reel/unit	Colour
010097	9.0	2	150	7.0	1	white
010098	9.0	3	150	7.0	1	white

Shts. = sheets ; unit = sales unit ; [1] cuttings to size extra cost ; [2] cuttings are not possible ; [3] without 4-sided angular cut ; [4] each sales unit packed separately in brown packing paper ; [5] extra cost for freight and packaging ; [6] sold only per complete sales unit

4. Paper

4.5 Silk tissue paper
Silk tissue paper sheets – w/o alkaline buffer

Silk tissue paper without an alkaline buffer, machine glazed single-sided, pH 7.0, acid-free and manufactured without the usage of optical brightening agents. Suitable as as wrapping paper for the archival storage of photographs, aquarelle paintings. The tissue paper has passed the Photographic Activity Test (PAT) in accordance with ISO 18916.

Item	Weight (gsm)	Size [2] (cm)	pH value	Shts./unit [4] [6]	Colour
0101-52	17 – 18	75 x 50	7.0	1000	white
01014	17 – 18	75 x 100	7.0	250	white
0101	17 – 18	75 x 100	7.0	500	white

4.5 Silk tissue paper
Silk tissue paper on reels – w/o alkaline buffer
Silk tissue paper without an alkaline buffer, rolled on reels, machine glazed single-sided, pH 7.0, acid-free and manufactured without the usage of optical brightening agents. Suitable as wrapping paper for the archival storage of photographs, paintings, graphics and textiles and as padding material for delicate objects. The tissue paper has passed the Photographic Activity Test (PAT) in accordance with ISO 18916.

Item	Weight (gsm)	Reel width [2] (cm)	Running metres (m)	pH value	Reel/unit	Colour
010182	18	130	500	7.0	1	white

Shts. = sheets ; unit = sales unit ; [1] cuttings to size extra cost ; [2] cuttings are not possible ; [3] without 4-sided angular cut ; [4] each sales unit packed separately in brown packing paper ; [5] extra cost for freight and packaging ; [6] sold only per complete sales unit

4. Paper

4.5 Silk tissue paper

Silk tissue paper sheets – with an alkaline buffer

White coloured silk tissue paper, buffered with natural calcium carbonate (GCC), pH between 8.0 – 9.5, acid-free and manufactured without the usage of optical brightening agents. Suitable as wrapping paper for archival storage of photographs, aquarelle paintings, graphics and textiles. The tissue paper has passed the Photographic Activity Test (PAT) in accordance with ISO 18916.

Item	Weight (gsm)	Size [2] (cm)	pH value	Shts./unit [4] [6]	Colour
01034	28	76 x 100	8.0 – 9.5	250	white
0103	28	76 x 100	8.0 – 9.5	500	white

4.5 Silk tissue paper

Silk tissue paper on reels – with an alkaline buffer

White silk tissue paper rolled on reels, buffered with natural calcium carbonate (GCC), pH between 8.0 – 9.5, acid-free and manufactured without the usage of optical brightening agents. Suitable as wrapping paper for archiving photographs, aquarelle paintings, graphics, textiles and as padding material for delicate objects. The tissue paper has passed the Photographic Activity Test (PAT) in accordance with ISO 18916.

Item	Weight (gsm)	Reel width [2] (cm)	Running metres (m)	pH value	Reel/unit	Colour
01031	21	100	500	8.0 – 9.5	1	white

Shts. = sheets ; unit = sales unit ; [1] cuttings to size extra cost ; [2] cuttings are not possible ; [3] without 4-sided angular cut ; [4] each sales unit packed separately in brown packing paper ; [5] extra cost for freight and packaging ; [6] sold only per complete sales unit

4. Paper

4.6 Glassine paper
Glassine paper transparent – sheets

Transparent glassine paper without an alkaline buffer, pH between 6.9 – 7.2, acid-free, manufactured without the usage of optical brightening agents. Suitable for the archival storage of photographs and negatives. The glassine paper has passed the Photographic Activity Test (PAT) in accordance with ISO 18916.

Item	Weight (gsm)	Size [2] (cm)	pH value	Shts./unit [4] [6]	Colour
0102	30	70 x 100	6.9 – 7.2	500	white
01024	30	70 x 100	6.9 – 7.2	250	white

4.6 Glassine paper
Glassine paper transparent – on reels
Transparent glassine paper rolled on reels, without an alkaline buffer, pH between 6.9 – 7.2, acid-free, manufactured without the usage of optical brightening agents. Suitable for the archival storage of photographs and negatives. The glassine paper has passed the Photographic Activity Test (PAT) in accordance with ISO 18916.

Item	Weight (gsm)	Reel width [2] (cm)	Running metres (m)	pH value	Reel/unit	Colour
01022	30	120	500	6.9 – 7.2	1	transparent
01025	90	157	50	6.9 – 7.2	1	transparent

Shts. = sheets ; unit = sales unit ; [1] cuttings to size extra cost ; [2] cuttings are not possible ; [3] without 4-sided angular cut ; [4] each sales unit packed separately in brown packing paper ; [5] extra cost for freight and packaging ; [6] sold only per complete sales unit

4. Paper

4.7 Blotting paper
Blotting paper natural white – sheets

Neutral, acid-free, ageing-resistant, soft absorbent blotting paper sheets manufactured without an alkaline buffer (unbuffered) and without optical brightening agents. The relatively rough yet soft surface makes the paper ideal for use as intermediate layers, in folders and preservation booklets. Originals placed on or between this paper, slide around less, which reduces mechanical strain on the originals – a characteristics that is much appreciated by conservators.

Item	Weight (gsm)	Thickness (mm)	Size (cm)	Grain	Shts./unit [4]	Colour
04007	120	0.25	102 x 95	short grain	100	natural white
04008	120	0.25	122 x 92	short grain	100	natural white

4.7 Blotting paper
Blotting paper natural white – on reels

Neutral, acid-free, ageing-resistant, soft absorbent reeled blotting paper manufactured without an alkaline buffer (unbuffered) and without optical brightening agents. The relatively rough yet soft surface makes the paper ideal for use as intermediate layers, in folders and preservation booklets. Originals placed on or between this paper, slide around less, which reduces mechanical strain on the originals – a characteristics that is much appreciated by conservators.

Item	Weight (gsm)	Thickness (mm)	Reel width (cm)	Running metres (m)	Reel/unit [2]	Colour
040010	120	0.25	124	150	1	natural white

Shts. = sheets ; unit = sales unit ; [1] cuttings to size extra cost ; [2] cuttings are not possible ; [3] without 4-sided angular cut ; [4] each sales unit packed separately in brown packing paper ;
[5] extra cost for freight and packaging ; [6] sold only per complete sales unit

5. Boxes

5.1 Clamshell boxes
KS 3

A tightly closing clamshell box suitable for the storage of books, photographic material and all sorts of loose and unbound objects. Available with or without insertion slits and with an additional base reinforcement. Our most popular archival box and bestseller.

5. Boxes

5.1 Clamshell boxes
KS18 Premium

A tightly closing, premium clamshell box; a more elaborate version of the known „Solander Box". Manufactured whilst using the finest book binding methods, this classical drop-back clamshell box is produced from solid conservation board with a complete fabric lining. Special emphasis has been given to ageing resistant and environmentally compatibile (less-polluting) materials. Delivery assembled and upright.

Item	For format	Int. dimensions (max.) [5] [9] H x W x T (mm)	height (max.) (mm)	Material (mm)

MW = corrugated board E-flute ; FW = corrugated board B-flute ; H = height ; W = width ; T = thickness ; D = depth ; L = length ; [5] extra cost for freight and packaging ; [9] delivery assembled and upright

5. Boxes

5.2 Wraparound boxes
KS 2

A tightly closing folder type, wraparound box especially suitable for heavy books. The interior surfaces of the box are smooth and additional stability is achieved with a double-walled construction.

Item	For size (cm)	Int. dimensions H x W x T (mm)	Ext. dimensions H x W x T (mm)	Material (mm)	Colour (exterior)
on request					

5.2 Wraparound boxes
KS 11

A folder type, wraparound box very similar to the design of the KS 1 box, yet with an attached base insert. Suitable for books and other kinds of archival objects. The narrow closing flap does not touch the object being archived.

Item	For size (cm)	Int. dimensions H x W x T (mm)	Ext. dimensions H x W x T (mm)	Material (mm)	Colour (exterior)
3121011	A4 / folio	350 x 235 x 63	359 x 244 x 80	FW 3.0	light grey

216510111		360 x 250 x 10	363 x 257 x 21	MW 1.65	grey-blue

MW = corrugated board E-flute ; FW = corrugated board B-flute ; H = height ; W = width ; T = thickness ; D = depth ; L = length

5. Boxes

5.3 Archival boxes

KS 7 – two-piece, with slide-in base tray

An archival box made of two pieces,
the corpus includes a slide-in base tray
(can be pulled out) with a drop-front attached
flap. Ideal for the storage of expansion folders,
unbound and loose-leaf collections and
newspapers. For storage purposes the boxes
can be stacked horizontally, one upon each
other.

5.3 Archival boxes

KS 15 – with slotted inlay
Two-piece archival box, comprising a drop-front corpus and an inner pull-out box, for the vertical and gentle storage of up to ten glass plates. The slotted inlay prevents pressure caused by plate-to-plate contact. Stackable. The corpus acts as a placeholder on the shelf.

Item	For size (cm)	Int. dimens. (inter. box) D x W x H (mm)	Ext. box dimens. D x W x H (mm)	Material (mm)	Colour (exterior)

5. Boxes

5.3 Archival boxes

KS 19 – for horizontal storage

An archival box made of two parts, the corpus includes a slide-in base tray (can be pulled out) with drop-front and attached flap. Ideal for the storage of expansion folders, unbound and loose-leaf collections and newspapers. For storage purposes the boxes can be stacked horizontally, one upon each other. Also available as a drop-front single piece with an attached flap.

5. Boxes

5.4 Archival boxes for roll storage
KS 16 – with tube insert

Roll storage boxes suitable for large-size and delicate archival objects (e.g. geographical/architecteral maps, textiles etc.). The tube in the box is made from spirally wound conservation board and is supported by two layers of corrugated board. In this way absolutely no pressure is exposed on the stored object. Two textile ribbons enhance easy manoeuvrability of the tube. Delivery assembled and upright.

Item	For size (cm)	Int. dimensions L x W x H (mm)	Ext. dimensions L x W x H (mm)	Material (mm)	Colour (exterior)

5.5 Slipcases, shelf files

KS 5 Slipcase

A classical slipcase designed for books.
Book spine visible. Available with or without
semi-circle cuts. Delivered either as a foldable
construction with self-locking tabs (plug-in) or
a pre-assembled construction, glued together.
The former is shipped flat and the latter
assembled and upright.

[9)] delivery assembled and upright

5. Boxes

5.5 Slipcases, shelf files
KS 6 Slipcase – with shelf file

A tightly closing slipcase with shelf file, designed for storing and organizing books, brochures, magazines, newspapers and loose-leaf collections (unbound documents). It can be put on a shelf just as a placeholder to ensure that objects are shelved tightly. Also available with an additional (standing) support for loose-leaf collections. For books it can also be used as a book shoe.

Item	Design	Int. dimensions H x W x T (mm)	Ext. dimensions H x W x T (mm)	Material (mm)	Colour (exterior)
on request					

5.5 Slipcases, shelf files
KS 9 Shelf file – glued version

Shelf file, glued version, designed for storing books, newspapers, brochures, magazines and collections of loose and unbound documents.
Also available with an additional (standing) support mechanism to ensure that the filed objects are kept upright, thus preventing them from bending over if the folder is not full to capacity. For books it can also be used as a book shoe.

5.6 Two-piece boxes
KS 16 – Corrugated board

A two-piece storage box, comprising of a base and a lid which are both double-walled on two sides. While closed the box is triple-walled all around and thus very sturdy. The folding construction ensures smooth interior surfaces.

Our most popular two-piece storage box, umpteen times in use. Ideal for the storage of large-sized objects, e.g. textiles, musical instruments, paintings, art objects etc..
On request the base unit can be provided with a drop-front opening.

5.8 Box configurator

Custom-made boxes

Based on our modular design concept you can configure your individual box. Our inventory allows for a variety of combination possibilities.
You will find the configurator at klug-conservation.com > Products > Configuration > Box configurator
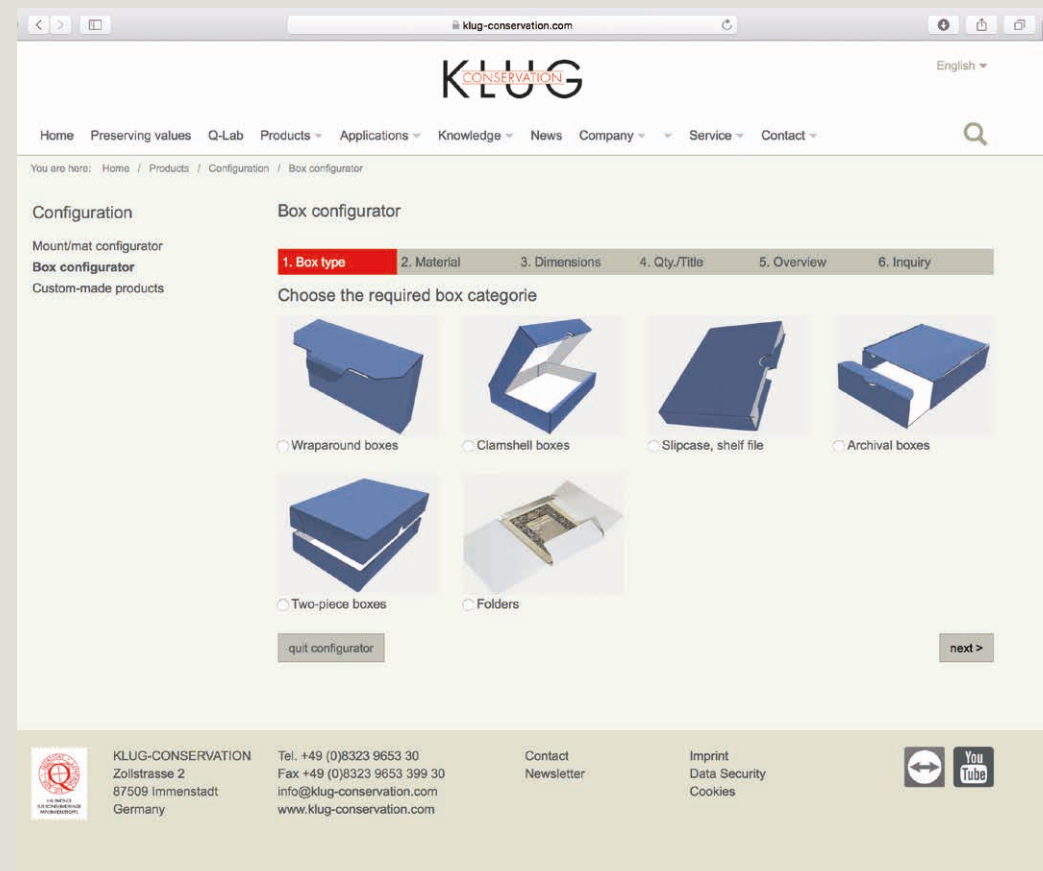

box configurator

6. Tubes

6.1 Tubes
– made from conservation board
Tubes made from spiral-wound, natural white, ageing-resistant conservation board. Board plies are glued with a quality tested lamination glue, pH-neutral and free of softening agents. Cutting to customer size on request, tubes available in various diameter sizes and can be cut to a max. length of 10 m. Tube joining segments are also available to extend the lengths of 150/200 mm diameter tubes to a max. of 4200 mm.

Item	Wall thickness (mm)	Tube diameter (Ø mm)	Length [1] (mm)	Tube/unit [5] per unit	Colour
01911101	2.0	100	2100	1 tube	natural white
01911121	2.0	120	2100	1 tube	natural white
01911145	2.5	145	500	1 joining segment	natural white
01911151	2.0	150	2100	1 tube	natural white
01911190	5.0	190	500	1 joining segment	natural white
01911201	2.5	200	2100	1 tube	natural white
01911301	3.0	300	2500	1 tube	natural white

Shts. = sheets ; unit = sales unit ; [1] cuttings to size extra cost ; [2] cuttings are not possible ; [3] without 4-sided angular cut ; [4] each sales unit packed separately in brown packing paper ; [5] extra cost for freight and packaging ; [6] sold only per complete sales unit ; *ES* = lamination of multiple-ply board with an emission-free adhesive

83

7. Cardboard pages/Folders

7.1 Cardboard pages
– with 2-hole or 4-hole perforation

Cardboard pages with 2-hole or 4-hole perforation (according to ISO standard). Suitable as covers/dividers for A4-files or for mounting purposes. Made from archival board 048 light grey, either 240 or 330 gsm, surface-refined, dirt-resistant, erasable and rub-proof (resistant to dry wiping). On request we produce customized cardboard pages (after technical clarification).

Item	Design	Size H x W (mm)	Material, weight (gsm), colour	Pages/unit [6]
048100	2-hole perforation	310 x 218	archival baord 048, 240 gsm – light grey	50
048101-3	2-hole perforation	310 x 218	archival baord 048, 330 gsm – light grey	50
04810127	2-hole perforation	350 x 230	archival baord 048, 240 gsm – light grey	50
04810156	2-hole perforation	350 x 230	archival baord 048, 330 gsm – light grey	50
04810175	4-hole perforation	310 x 240	archival baord 048, 330 gsm – light grey	50
04810182	4-hole perforation	325 x 270	archival baord 048, 330 gsm – light grey	50

Unit = sales unit ; H = height ; W = width ; T = thickness ; D = depth ; L = length ; [6] sold only per complete unit

7. Cardboard pages/Folders

7.2 Folders without flaps
Folders without flaps made from archival board - with a centred groove or museum paper - with a centred fold, suitable for storing all types of documents, manuscripts, drawings, posters etc. This is a very reasonable and inexpensive archiving system.

Upon request we can also deliver A4 size with pre-punched holes for ring-binding or with attached textile ribbons.

Item	For size	Dimensions closed H x W (mm)	Dimensions open H x W (mm)	Delivery	Material, weight (gsm), colour

Unit = sales unit ; H = height ; W = width ; T = thickness ; D = depth ; L = length

7.3 Folders with flaps

Juris folders (standard assortment ex-stock)

Folders with flaps, also called expansion or "Juris Folders", are made from a single sheet, with multiple grooves on the flaps. Customer imprints possible. The folders can be delivered with loose or pre-stuck base reinforcements. This prevents the originals being archived against external damages that can get caused due to bending. This minimal enhancement increases the value-for-money aspect to a great degree.

A large range of standard sizes available ex-stock.

Item	For size/design	Int. dimensions H x W x T (mm)	Material, weight (gsm), colour

7.3 Folders with flaps

Graphic folders – with glued on flaps and ribbons

Depending on the format, flaps are glued on the exterior or attached with black mesh shirting ribbon. This creates smooth inner surfaces. The lid is attached with black mesh shirting ribbon. Three ribbon pairs are provided for closure. The document folders, also referred to as drawing, artwork or archival folders, are often used to store valuable maps, plans, posters, documents and individual pictures.

Item	Int. dimensions H x W x T (mm)	Material, weight (gsm), colour
04847060	460 x 320 x 30	corpus: MW 1.7, flaps made from archival board 047 330 gsm, grey-blue/natural white

Unit = sales unit ; H = height ; W = width ; T = thickness ; D = depth ; L = length

7. Cardboard pages/Folders

7.4 Folders with filing mechanism

An archival folder "Brauweiler Folder" with a filing mechanism for filing sheets of A4, folio and large folio sizes. Made from archival board 048, 330 gsm, light grey in colour. Due to special surface treatment dirt-resistant, erasable and rub-proof (dry wiping). The folder also includes a polymide filing mechanism. Other sizes on request.

Item	For size	Int. dimensions L x W x H (mm)	Ext. dimensions L x W x H (mm)	Material, weight (gsm), colour
940150	A4	310 x 225 x 70	311 x 226 x 71	archival board, 330, light grey

7.5 Preservation folders

Stackable preservation folders available with or without flaps for embedding valuable and pressure-sensitive archival objects of various sizes. The object is embedded in a bed frame made of either conservation board, corrugated board or a honeycomb panel. The bed frame is glued to a folder. The embedded object is provided a safe housing from all kinds of mechanical impacts.

Item	Design	Int. dimensions L x W x H (mm)	Ext. dimensions L x W x H (mm)	Material, weight (gsm), colour

8. Enclosures

8.1 Folder enclosures
– made from opaque paper

Folder enclosures made from unbuffered, opaque photographic archival paper 120 gsm or buffered natural white coloured museum paper 120 gsm, light white. The enclosure is open on three sides and has a 10 mm longer back flap for inscription purposes. These enclosures are ideally suitable for the archival storage of prints, negatives, glass plates etc.

The paper has passed the Photographic Activity Test (PAT) in accordance with ISO 18916.

Item	For size (cm)	Dimensions H /H x W (mm)	Material, weight (gsm), colour	Folder/unit
41195	9 x 12	135/125 x 95	museum paper, 120, light white	1000

Unit = sales unit ; H = height ; W = width ; T = thickness ; D = depth ; L = length

8. Enclosures

8.2 Envelopes U-style
– made from transparent paper

Photographic envelope enclosures in U-style, made from transparent archival paper without an alkaline buffer. The envelope opening is on the longer side. Suitable for archiving photographs, negatives and glass slides. Other sizes available upon request.

Both, the paper and glue have passed the Photographic Activity Test (PAT) in accordance with ISO 18916.

Item	For size (cm)	Dimensions H/H x W (mm)	Material, weight (gsm)	Envelopes/unit
1211	9 x 12	105/95 x 125	archival paper, 40, transparent	1000

Unit = sales unit ; H = height ; W = width ; T = thickness ; D = depth ; L = length

8. Enclosures

8.2 Envelopes U-style
– made from opaque paper

Premium-quality photographic archival envelopes with gumming on the exterior for storage of prints, negatives, microfiches and glass plates. The envelopes are made of ageing-resistant photographic archival paper with the opening located on the long side of the envelope. They are available buffered or unbuffered, and in white or natural white. Gumming on the envelope exteriors ensures smooth interior surfaces. The stored object has no contact with the gummed flap and is safe from any rubbing or chafing that may otherwise be caused by paper edges located inside the envelope. Paper and adhesive have passed the Photographic Activity Test (PAT) according to ISO 18916.

8. Enclosures

8.5 Four flap folders
– buffered and unbuffered qualities

Seamless, four flap folder enclosures folded from a single sheet of either buffered, natural white coloured museum paper or in unbuffered, opaque photographic archival paper. These folder enclosures are suitable for archiving glass plates, valuable photographs and negatives. The maximum filling depth is 3 mm.

Both papers have successfully passed the Photographic Activity Test (PAT) in accordance with ISO 18916. Other sizes available on request.

8. Enclosures

8.6 Envelopes for documents
– made from archival paper
An envelope enclosure closed on all sides and thus with no loss of fragments. Ideal for archiving legal douments, certificates, manuscripts etc. The envelope is folded together, four-sided, from a single sheet of light grey or grey-blue archival paper, 130 gsm. Due to special surface treatment dirt-resistant, erasable and rub-proof (dry wiping). Other sizes on request.

Item	Design	Int. dimensions L x W x H (mm)	Ext. dimensions L x W x H (mm)	Material, weight (gsm), colour
941151	folded from a single sheet	260 x 180 x 2	261 x 181 x 3	archival paper, 130, light grey
9411511	folded from a single sheet	260 x 180 x 2	261 x 181 x 3	archival paper, 130, grey-blue
941152	folded from a single sheet	325 x 230 x 2	326 x 231 x 3	archival paper, 130, light grey

8.6 Envelopes for documents
– made from archival board

An envelope enclosure closed on all sides, with block bottom and variable filling depth. No loss of fragments. Ideal for archiving legal documents, certificates, manuscripts etc. A very compact archiving method for minimum space requirement. The envelope enclosure is made from light grey coloured archival board, 240 gsm. Due to special surface treatment dirt-resistant, erasable and rub-proof (dry wiping). Other sizes on request.

Item	Design	Int. dimensions L x W x H (mm)	Ext. dimensions L x W x H (mm)	Material, weight (gsm), colour

941180	90	13.0 x 11.0	2.0	300	100	white

Uunit = sales unit

9. Glues/Tapes

9.1 Dispersion glues
– water-based

Item	Weight (kg)	Material	Qty./unit	Colour
0199	0.5	dispersion glue/short opening time	1 plastic jar	white
0200	0.5	dispersion glue/longer opening time	1 plastic jar	white

Manufactured free of softening agents and pH-neutral. Suitable for both manual and machine bookbinding and laminating work. Glue 0199 has a shorter open time and is particularly suitable for work where fast adhesion of the glue is important. Glue 0200 has a longer open time and is more suitable for laminating work and for work in which the adhesive blends are still to be moved and manipulated after joining. Both dispersion glues have been especially developed for long-term preservation and archival storage of photographic items.

9.1 Tylose MH300

Item	Weight (ml)	Qty./unit	Colour
0203	40	1 tube	transparent

A suitable glue for file preparation (treatment), mounting of objects and other applications in the conservation and preservation fields. From the conservation point-of-view, the cellulose derivative „Tylose MH300" (methyl hydroxyethyl cellulose) is a totally harmless and reversible glue. This biopolymer is usually utilized in the field of paper conservation. It is physiologically harmless and water-soluble. Micro-organisms can affect this adhesive with great difficultly.

Unit = sales unit

9. Glues/Tapes

9.2 Tapes
– made from paper

Paper tape made on the basis of potato starch and manufactured without the usage of softeners or plasticizers. Used for the manufacture of conservation-quality mats, mounts, file and preservation folders in the picture framing industry. Free of acidic substances.

Item	Reel width (cm)	Running metres [2] (m)	Weight (gsm)	pH value	Reel/unit	Colour
067-25/0	2.5	50	approx. 70	approx. 7.0	1	white
067-50/0	5.0	50	approx. 70	approx. 7.0	1	white

9.2 Tapes
– made from fabric

Starch-based fabric tape manufactured without the usage of softeners or plasticizers. Used for the manufacture of conservation-quality mats, mounts, file and preservation folders in the picture framing industry. Free of acidic substances. Grammage of the fabric tape including the adhesive coating is approx. 170 gsm.

Item	Reel width (cm)	Running metres [2] (m)	Weight (gsm)	pH value	Reel/unit	Colour
089-23	3.0	50	170	7.0 – neutral	1	natural white
089-24	4.0	50	170	7.0 – neutral	1	natural white
089-25	5.0	50	170	7.0 – neutral	1	natural white
089-26	6.0	50	170	7.0 – neutral	1	natural white

10. Accessories

10.1 Label paper

White coloured, conservation-quality label paper with a dextrin-based gumming. Labels are available in A4 size (one A4 sheet) as well as many other sizes (micro-perforated A4 sheets). Suitable for printing using laser, inkjet, needle, thermo-transfer printers as well as for offset print. Size, format and print colour of each label can be customized according to individual requirements.
The label can be mounted with ease by activating the gummed backside with moisture.

Item	Weight (gsm)	Sheet size (cm)		Label size H x W (mm)	Labels/sheet	Shts./unit		Colour
00991097	105	21 x 29.7 [2]	A4 shts.	10 x 60	78	100 A4	(7800 labels)	white

10. Accessories

10.2 Signature labels

Item	Design	Colour
1021	make signature labels	white
1023	cut and gum signature labels	white

Signature labels are made from ageing-resistant label paper of conservation-quality. Each individual label is laser printed.

We not only label individual boxes, file folders and enclosures, but on request we can have the similar labels printed (offset or silk-screen print) and brought onto any desired KLUG product.

10.3 Label frames

The main advantage of these label frames (holder) made from archival board is that the inscription can be easily removed or replaced and thus very user-friendly. The frame label can be brought on to any desired position.

Custom-made frame sizes available on request.

Item	Design	Int. dimensions window size (mm)	Ext. dimensions (mm)	Material, weight (gsm)	Colour
0099081	opening edgewise	15 x 50	35 x 70	archival board, 240	light grey

Shts. = sheets ; unit = sales unit ; [1] cuttings to size extra cost ; [2] cuttings are not possible ; [3] without 4-sided angular cut ; [4] each sales unit packed separately in brown packing paper ; [5] extra cost for freight and packaging ; [6] sold only per complete sales unit

10. Accessories

## 10.4 Barcode labels
– also used as bookmarks

Barcode labels are made of light grey, ageing-resistant, buffered, archival paper 048, 130 gsm. A semi-circular cut-out in the upper section of the label makes it easy to fix to one or several sheets. Enough of the tag protrudes from the object to accommodate a commercially available barcode sticker. The material meets the technological requirements of ISO 9706 and has passed a PAT (Photographic Activity Test).

Item	Size H x W (mm)	Material	Shts./unit [6]	Colour
97-0003	180 x 60	archival paper 048, 130 gsm	100	light grey
97-0001	200 x 90	archival paper 048, 130 gsm	100	light grey

10.5 Mounting accessories
Mounting corners
Mounting corners used for mounting photographs, graphics and other flat originals. Made of unbuffered photographic archival paper, 120 gsm, without the usage of optical brightening agents (OBA-free).
– Cutting size 25 x 35 cm with 36 mounting corners, not broken off. Packed in plastic polythene bags, including instructions.

Item	Weight (gsm)	Size of cutting (cm)	Size of corner (mm)	Corners/cutting [2]	Shts./unit [6] (corners)	Colour
9411140	120	25 x 35	20 x 27	36	10 (360 corners)	natural white

H = height ; W = width ; Shts. = sheets ; unit = sales unit ; [1] cuttings to size extra cost ; [2] cuttings are not possible ; [3] without 4-sided angular cut ; [4] each sales unit packed separately in brown packing paper ; [5] extra cost for freight and packaging ; [6] sold only per complete sales unit

10. Accessories

10.5 Mounting accessories
Mounting segments for seals

Mounting segments used to affix legal documents with attached or hanging pendant seals. Circular and angular segments - made of ageing resistant board – are most commonly used for mounting flat documents. The segments are glued either flush or offset, mounted above each other. This enables the fixation of various types of seal forms or legal documents onto flat documents without causing any damage.

Item	For size (mm) design	Material (mm)	Segments/ cutting	Cuttings/unit [2]	Colour
9411100	circular segment: 27 x 96 x 12	MW 1.8	12	1	light grey/natural white
9411110	circular segment: 4 different radiuses	MW 1.8	72	1	light grey/natural white
9411120	circle diameter: 30	MW 1.8	20	1	light grey/natural white
9411130	angular segment: 35 x 35	MW 1.8	20	1	light grey/natural white

10.6 Paper fastening strips
– for roll films

Fastening strips (bands) for 16 mm and 35 mm roll films made from buffered KLUG museum paper. Three slits allow easy closure of the band. Fastening strips protect microfilms and prevent accidental unrolling. Delivered as packaging units of pre-punched sheets of fastening strips. The paper has passed the Photographic Activity Test (PAT) in accordance with ISO 18916.

Item	For size H x W (mm)	Material, weight	Strips/unit [6]	Colour
9411100	360 x 16	museum paper, 160 gsm	100	light white
9411110	360 x 35	museum paper, 160 gsm	104	light white

Shts. = sheets ; unit = sales unit ; [1] cuttings to size extra cost ; [2] cuttings are not possible ; [3] without 4-sided angular cut ; [4] each sales unit packed separately in brown packing paper ; [5] extra cost for freight and packaging ; [6] sold only per complete sales unit

10. Accessories

10.7 Polyester nonwoven fabric
– on rolls, thermally bonded

Polyester nonwoven fabric roll, 30 gsm, thermally bonded, air-permeable, chemically inert with an extremely smooth surface finish. The support fabric can be used in many different types of preservation and restoration work, e.g. to support fragile items during conservation treatments, as a release material in wet processes (carrier-support while soaking items in water) and as interleaving material.

Item	Weight (gsm)	Roll width (cm)	Running metres (m)	Material	Roll/unit [2]	Colour
9411903	30	100	50	100% polyester	1	white

10.8 Polyamide filing clips

Polyamide filing clip – archival quality filing mechanism for use with folders and punched pages. Made of 100% polyamide plastic, light grey, plasticizer-free, high tensile strength, ageing-resistant. Easy placement of paper on rounded heads of filing mechanism. Stack of bundled paper can be leafed through. Heads of archiving clips marketed since autumn 2021 fit inside commonly available file content transfer tools.

Item	Design	Material	Qty./unit	Colour
900199	filing depth 95 mm – contents of 1 file/binder	100% polyamide	1000	light grey

Shts. = sheets ; unit = sales unit ; [1] cuttings to size extra cost ; [2] cuttings are not possible ; [3] without 4-sided angular cut ; [4] each sales unit packed separately in brown packing paper ; [5] extra cost for freight and packaging ; [6] sold only per complete sales unit

10. Accessories

10.9 Albertina poultice

Item	Size [2] (cm)	Sets/unit	Colour
0512030	20 x 30	1	white
0512040	30 x 40	1	white

This enzyme poultice is a ready-for-use product for the easy removal of non-swellable starch-based (amylase) glue.

The set is available in a plastic pocket bag and comprises of two interleaving tissue papers, an amylase poultice and a moistening fleece (blotting board).

Please pay particular attention to the application instructions.

10.10 Panduran pen

Item	Design	Pens/unit	Colour
11-1	pen	1	white

Since the 19th century machine-made paper and board material was generally sized with alum. This has been the main reason for the premature decay of paper. Panduran is an eriochrome dye which reacts chemically to the aluminium ions present in alum, and in the process changes from yellow to blue to violet, thus detecting the alum content in the paper being tested. This reaction is not influenced by the pH of the tested paper. Boards and papers with alum content are principally not suitable for long-term archival storage.

Shts. = sheets ; unit = sales unit ; [1] cuttings to size extra cost ; [2] cuttings are not possible ; [3] without 4-sided angular cut ; [4] each sales unit packed separately in brown packing paper ; [5] extra cost for freight and packaging ; [6] sold only per complete sales unit

10. Accessories

10.11 Set for determination of grammage

Item	Content	Set/unit
99-939	digital scale, cutter knife, cutting template, calibration weight	1

The set for determination of grammage can be used to determine the grammage of paper, board and corrugated board within minutes.

Grammage is the quotient of weight and unit area. It is stated in gsm.

Example:
One sheet of board of size 7.071 x 7.071 cm (= 50 cm²) weighs 1.5 g.
The board grammage in this case is 1.5 g / 0.005 m² = 300 gsm.

Shts. = sheets ; unit = sales unit ; [1] cuttings to size extra cost ; [2] cuttings are not possible ; [3] without 4-sided angular cut ; [4] each sales unit packed separately in brown packing paper ; [5] extra cost for freight and packaging ; [6] sold only per complete sales unit ; *ES* = lamination of multiple-ply board with an emission-free adhesive

116

11. Boxing System

11.1 Boxing system
A complete boxing system to produce custom-made boxes, cases, folders and other types of protective packagings especially for cultural artefacts.

All components of this system including the KLUG board and paper material supplement each other and are optimized for the individual requirements of libraries, archives and museums. The main components of the boxing system are: one or more book measuring devices, a digital cutter, CAD/CAM software to design the products.

We offer financial possibilities to either lease or purchase the boxing system.

Please contact our sales team for more information.

Storage conditions of paper and board

Recommended storage instructions

Paper and board are materials possessing hygroscopic properties. That means they can either absorb or release moisture from the atmospheric surroundings. Hygroscopic materials are constantly trying to compensate moisture differences between the surrounding ambient air. This is a never-ending dynamic process.

Since the relative humidity depends upon the prevailing weather conditions, there are often strong fluctuations. These weather fluctuations have a significant influence on storage conditions especially in non-temperature-conditioned storage rooms.

KLUG products are produced and stored under controlled environmental conditions with a constant relative humidity between 45% and 60%. In the case of large temperature variations between the material and ambient air there is a great risk of the material warping, shrinking or in fact even increasing. (Size and format difference up to several mm possible!)

Recommended storage conditions

- Temperature 18 – 20 °C (64.4 – 68 °F)
- Relative humidity 50% – 55%

For further information regarding storage conditions of paper and board please refer to our website klug-conservation.com.

Sales terms and conditions

Prices: We offer subject to confirmation (subject to revision without notice) exclusive VAT (net value). VAT is chargeable to EU-customers, unless your VAT ID number is supplied to us. VAT is legally required on the total cost of goods and carriage. Exports outside the European Union are not subject to VAT excluding other indirect taxes and custom charges.

Payment terms: As agreed upon and specified in an offer, preferably by bank transfer in Euros with all bank charges paid.

Packaging and delivery: Packaging cost is free of charge for net order value of >= 750 Euros, excluding packaging for bulky and oversize goods. Delivery costs are calculated based on your enquiry.

Delivery instructions: Please inspect your package immediately upon delivery. In case of any visible damage, please make a note on the freight document and have it confirmed by the haulage driver before signing the receipt document. This allows us to claim compensation for damages from our transport insurance. If the ordered goods are delivered by a shipping company, the consignee is responsible for unloading the goods (parcels/pallets) from the truck. If you have no equipment to unload pallets or to transport them to the house, please inform us before placing the order – we will surely find a solution for you!

Place of performance and jurisdiction is Immenstadt in Allgaeu/Germany. Otherwise we refer to our "General business terms and conditions".
