KLUG CONSERVATION

Preserving values

Product catalogue

KLUG's expertise. Preserving values. Securing the future.

For more than 150 years, KLUG-CONSERVATION has been recognized as a trusted and reliable partner in the preservation of movable cultural assets. With a commitment to excellence, precision and responsibility, we support institutions worldwide – including archives, museums, libraries, conservators and professional art framers – in safeguarding cultural heritage for future generations. Preserving values means more than protection: it safeguards identity, history and cultural legacy.

Our guiding principle, "Preserving values," reflects both our mission and sense of responsibility. Through consistent material quality and rigorously verified standards, we ensure maximum reliability, credibility and long-term continuity. Honesty, a spirit of partnership and respectful dialogue form the foundation for long-lasting collaboration.

Working closely with clients, industry experts, academic institutions and research organizations, we develop innovative, solution-oriented conservation concepts. Our portfolio ranges from the development and production of durable, age resistant papers to premium-quality preservation materials and their professional application. We provide comprehensive, complete integrated end-to-end solutions from a single trusted partner. Our customer service supports you with dedicated personal assistance, expert advice and fast, response times.

KLUG-CONSERVATION combines traditional paper craftmanship with state-of-the-art innovation. This unique combination enables us to ensure sustainable preservation of cultural assets at the highest professional level.

Brochure information with effect from November 2026.

Quality guarantee

KLUG-CONSERVATION consequently manufactures their ageing resistant paper and board products in accordance with strictly set conservation and preservation regulations and to internationally recognized standards.

We provide each product with a legal binding guarantee certificate on the technological basis of the EN ISO 9706:2026 and ISO 16245:2023 standards. Products made for photographic archival storage have successfully passed the Photographic Activity Test (PAT) ISO 18916:2025.

Each of our products is supplied with a quality guarantee certificate, which legally covers far more than the normal warranty terms, ensuring that the material used meets the requirements for ageing resistance.

For you as our valued customer that means, regardless of any individual tests and results, such as those from independent institutes, e.g. "The Paper Technological Foundation (PTS)", the quality of the product we have supplied strictly meets the requirements stated in the "Quality Guarantee Certificate".

On the safe side

Quality assurance plays a very important role at KLUG-CONSERVATION. This is clearly demonstrated by certifications for our products and services obtained from independent institutions. As a reliable long-term partner, we offer our customers maximum security and full confidence in our products.

The ISO 9001 standard standard defines the requirements for quality management systems and also stipulates that, in addition to meeting customer expectations, legal and regulatory requirements must also be fulfilled. We comply with all these standards and deliver high-quality products and services.

As a manufacturer and retailer of FSC-certified paper and board products, Walter Klug GmbH & Co. KG holds a chain of custody (CoC) certification. This means that all steps of the supply chain – from the forest to the final finished product – are certified according to applicable FSC® standards and reviewed annually.

Sustainability shapes everything we do – from our production facility in Immenstadt to the finished product for the preservation of cultural heritage. We rely on resource-efficient production methods, carefully sourced materials and energy-efficient processes. Through energy-saving measures, the use of renewable energy and the sorting of production waste for recycling, we strive to conserve resources and reduce CO_2-emissions. To support these goals, we actively participate in the Allgäu Climate Alliance and the Development and Climate Alliance Foundation. Unavoidable emissions are offset through certified climate protection projects. Find out more about our certifications and our participation in the Climate Alliance Allgäu.

Sustainable with a sense of social responsibility

Our actions are based on sustainability. Humankind and the environment play a major role in all our business decisions. We strive to conserve resources, promote regenerative practices and act in a socially responsible manner. This is reflected by our products and their manufacturing process as well as our social commitment.

Find out more about our efforts regarding energy efficiency in the production process and achieving climate neutrality as well as our commitment to preserving cultural assets. Discover our products made from natural raw materials that we develop, manufacture and sell.

Infinite solutions

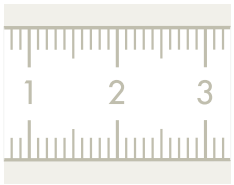
You can take your pick from our standard range of products, which are based on the modular design concept, or you can choose to let us create a product custom-made for you.
You have the idea, we create the solution!
In the case that the product you require is not available in our standard range or all combination possibilities have been exhausted, you can choose to let us develop, together with you, an item that uniquely caters to your preservation requirements. By exclusively using our guaranteed ageing-resistant paper and board materials as a base, we are able to make your unconventional, creative ideas a reality – from a prototype up to large scale production. It will be our pleasure to assist you.

- Standard assortment: Products available ex-stock or at short notice (products in this catalogue)
- Modular design concept: If you are unable to find the required product in our standard range of products, our modular-based inventory allows for a variety of combination possibilities (e.g. colour, thickness, size, etc.) – Please feel free to make use of our online configurators.
- Custom-made: We will create, keeping in mind your ideas, a specialized product that uniquely caters to your requirements. Please do not hesitate to contact us: we will gladly advise you.

Service benefits

Advisory service

- Free examination of your artwork collection (inventory)
- Free development of your preservation project
- Complete handling of your preservation project

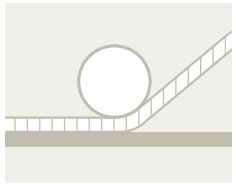


Measurement

- Free provision of a measuring device to allow quick and precise measurement of two-dimensional (e.g. graphic art, photographs etc.) and three-dimensional (e.g. books, files etc.) objects
- Measurement of the dimensions of objects as well as signatures and titles to the nearest millimetre

Cutting

- Sizes with plus tolerance – max. ± 7 mm
- Rough cuts of formats for most product free of charge, for orders of more than 1 sales unit (formats can be divided into halves, thirds, quarters, sixths, eighths or ninths)
- Fine cuts (e.g. 4-sided angular cut), special and customised formats on request
- Passepartout/mount cutting service

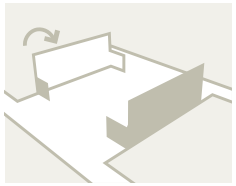


Lamination

- Individual custom-made lamination (modular concept)
- Various board thicknesses available
- Special colours on request

Packaging

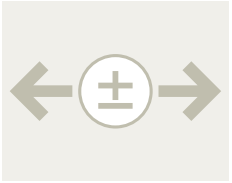
- Individual packaging units on request
- Ream packaging in paper or plastic bags
- Packaging of individual product combinations on request (e.g. box filled with envelopes etc.)



Assembly/Folding

- All folders, binders and boxes – on request – also available assembled and folded ready-for-use
- Or space-saving storage and easy handling due to delivery as flat goods
- Flat goods for quick assembly in few steps, with clear folding instructions as animated images or PDF

Tolerances



The following production tolerances are to be taken into consideration:

- Quantity tolerance for paper
  ± 3% however a minimum of ± 5 sheets per quantity unit
- Quantity tolerance for board, corrugated board
  ± 3%
- Quantity tolerance for enclosures, folders, boxes
  ± 8%
- Weight (grammage) tolerance
  ± 7%
- Thickness (calliper) tolerance
  Paper and board up to 300 gsm ± 10%, board > 300 gsm ± 5%, corrugated board ± 8%
- Dimensional (size) tolerance for paper and board material
  Sizes with plus tolerance – max. ± 7 mm, cutting tolerance 4-sided angular cut ± 2 mm
- Dimensional (size) tolerance for corrugated board
  Cutting tolerance ± 3 mm
- Dimensional (size) tolerance for reeled paper
  Roll width ± 5 mm, running metres ± 3%
- Dimensional (size) tolerance for enclosures, folders, boxes
  Plus tolerance up to 5%
- Dimensional (size) tolerance for envelope enclosures
  Angle tolerance ± 2 mm, format (size) tolerance ± 3 mm
- Dimensional (size) tolerance for tubes
  Diameter and tube wall thickness ± 0.3 mm, lengths ± 10 mm
- Tolerance perpendicularity in case of cuttings with 4-sided angular cut
  Angle tolerance 0.6% however a minimum of 3mm for 1m length
- Planarity tolerance for corrugated board
  Planarity (flatness) tolerance ± 15 mm for 1m length
- Spots (fibre residues and pulp impurities)
  Spots up to a size of 0.4 mm are considered insignificant. Spots up to 0.9 mm are acceptable, provided they do not exceed a maximum of two spots per m^2 in accordance withe the mounting board standard.
- pH tolerance
  ± 0.5 variation on the pH scale (pH 7, pH 6.5 and 7.5 are also permitted)

Deviating tolerances are to be agreed upon separately.

1. Boards

014166	✓	✓	1.8	100 x 140	1780	10	chamois dyed throughout

FSC® (Forest Stewardship Council) = Items with virgin cellulose fibre from sustainable forest cultivation and trade; ***ES*** = lamination of multiple-ply board with an emission-free adhesive; shts. = sheets; unit = sales unit
[1] cuttings to size extra cost; [2] cuttings are not possible; [3] without 4-sided angular cut; [4] each sales unit packed separately in brown packing paper; [5] extra cost for freight and packaging; [6] sold only per complete sales unit

1.2 Conservation boards

025 – offwhite/soft white

A compact, durable offwhite/soft white conservation board with a specially treated, dirt-resistant top surface that is erasable and rub-proof (dry wiping). It offers excellent diagonal cutting and creasing performance, making it ideal for conservation-quality framing and mounting. The board contains no optical brighteners and has passed the Photographic Activity Test (PAT) in accordance with ISO 18916.
Cuttings: Rough cuts of formats free of charge for orders > 1 sales unit (formats can be divided into halves, thirds, quarters, sixths, eighths or ninths), other sizes on request.

Item	FSC®	Thickness (mm)	Size (cm)	Weight (gsm)	Shts./unit [12]	Colour
02518/4	✓	1.8	90 x 120	1230	10	offwhite/soft white
02518/2	✓	1.8	100 x 140	1230	10	offwhite/soft white

1.2 Conservation boards

048 – light grey

A compact, durable light grey solid colour (dyed throughout) conservation board with a specially treated, dirt-resistant top surface that is erasable and rub-proof (dry wiping). It offers excellent diagonal cutting and creasing performance, making it ideal for conservation-quality framing and mounting. The board contains no optical brighteners and has passed the Photographic Activity Test (PAT) in accordance with ISO 18916.
Cuttings: Rough cuts of formats free of charge for orders > 1 sales unit (formats can be divided into halves, thirds, quarters, sixths, eighths or ninths), other sizes on request.

Item	FSC®	Thickness (mm)	Size (cm)	Weight (gsm)	Shts./unit	Colour
048075/7	✓	0.75	125 x 146	780	10	light grey dyed throughout
04815/7	✓	1.5	124 x 144	1590	7	light grey dyed throughout

FSC® (Forest Stewardship Council) = Items with virgin cellulose fibre from sustainable forest cultivation and trade; ***ES*** = lamination of multiple-ply board with an emission-free adhesive; shts. = sheets; unit = sales unit
[1] cuttings to size extra cost; [2] cuttings are not possible; [3] without 4-sided angular cut; [4] each sales unit packed separately in brown packing paper; [5] extra cost for freight and packaging; [6] sold only per complete sales unit

1.2 Conservation boards

050 – black

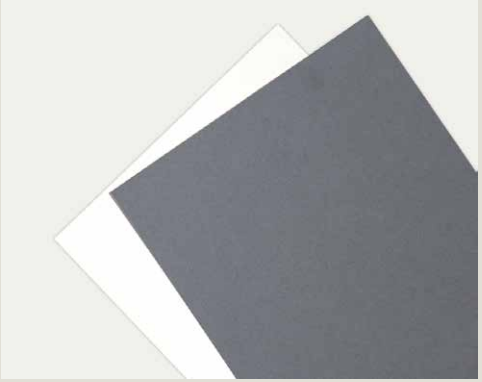
A compact and very hard, black solid-coloured board (dyed throughout) ideal for conservation-quality picture framing and mounting. The board has high abrasion resistance and is extremely light-fast (approx. 7 – 8 in accordance with the wool scale). The board is dyed evenly black and has passed the Photographic Activity Test (PAT) in accordance with ISO 18916.

Cuttings: Rough cuts of formats free of charge for orders > 1 sales unit (formats can be divided into halves, thirds, quarters, sixths, eighths or ninths), other sizes on request.

Item	FSC®	Thickness (mm)	Size (cm)	Weight (gsm)	Shts./unit	Colour
050050	✓	0.5	80 x 120	360	40	black dyed throughout
05015/4	✓	1.5	80 x 120	1130	20	black dyed throughout
05015/2		1.5	100 x 140	1130	10	black dyed throughout
05025/4	✓	2.5	80 x 120	1900	10	black dyed throughout
05030/4	✓	3.0	80 x 120	2200	10	black dyed throughout

1.3 Backing boards

07 – natural white/grey-blue and grey-blue/white/grey-blue



An economically priced backing board in natural white/grey-blue and grey-blue/white/grey-blue, specially developed for conservation-quality picture framing and mounting. The board is free of optical brightening agents and has passed the Photographic Activity Test (PAT) in accordance with ISO 18916.

Cuttings: Rough cuts of formats free of charge for orders > 1 sales unit (formats can be divided into halves, thirds, quarters, sixths, eighths or ninths), other sizes on request.

Item	FSC®	Thickness (mm)	Size (cm)	Weight (gsm)	Shts./unit	Colour
0747270	✓	2.7	101 x 141	1810	5	natural white/grey-blue
074477270	✓	2.7	101 x 141	1810	5	grey-blue/white/grey-blue

FSC® (Forest Stewardship Council) = Items with virgin cellulose fibre from sustainable forest cultivation and trade; shts. = sheets; unit = sales unit

[1] cuttings to size extra cost; [2] cuttings are not possible; [3] without 4-sided angular cut; [4] each sales unit packed separately in brown packing paper; [5] extra cost for freight and packaging; [6] sold only per complete sales unit

1.4 Archival boards

047 – grey.blue

A grey-blue, solid colour (dyed throughout) board with a specially treated top surface, dirt-resistant, erasable and rub-proof (dry wiping). Excellent grooving/creasing characteristics due to high long-fibre content. The board is free of optical brightening agents and has passed the Photographic Activity Test (PAT) in accordance with ISO 18916. **Cuttings:** Rough cuts of formats free of charge for orders > 1 sales unit (formats can be divided into halves, thirds, quarters, sixths, eighths or ninths), other sizes on request.

Item	FSC®	Weight (gsm)	Size (cm)	Thickness (mm)	Grain	Shts./unit	Colour
04718513		185	100 x 140	0.21	long grain	50	grey-blue dyed throughout
04724011	✓	240	70 x 100	0.25	alternate grain	50	grey-blue dyed throughout

FSC® (Forest Stewardship Council) = Items with virgin cellulose fibre from sustainable forest cultivation and trade; shts. = sheets; unit = sales unit

[1] cuttings to size extra cost; [2] cuttings are not possible; [3] without 4-sided angular cut; [4] each sales units packed separately in brown packing paper; [5] extra cost for freight and packaging; [6] sold only per complete sales unit

1.4 Archival boards

049 – taupe

A taupe, solid colour (dyed throughout) archival board with a specially treated top surface, dirt-resistant, erasable and rub-proof (dry wiping). Excellent grooving characteristic due to high long-fibre content. The board is free of optical brightening agents and has passed the Photographic Activity Test (PAT) in accordance with ISO 18916.

Cuttings: Rough cuts of formats free of charge for orders > 1 sales unit (formats can be divided into halves, thirds, quarters, sixths, eighths or ninths), other sizes on request.

Item	FSC®	Weight (gsm)	Size (cm)	Thickness (mm)	Grain	Shts./unit	Colour
049/170SB	✓	170	80 x 120	0.2	long grain	125	taupe dyed throughout
049/170BB	✓	170	120 x 80	0.2	short grain	125	taupe dyed throughout

1.5 Photographic archival boards

89 – natural white, without an alkaline buffer

A natural white, solid colour (dyed throughout) photographic archival board without an alkaline buffer, and with a pH of 7.0. Suitable for conservation-quality picture framing and mounting, and for the presentation of photographs and other kinds of photographic material. The board is free of optical brightening agents and has passed the Photographic Activity Test (PAT) in accordance with ISO 18916.

Cuttings: Rough cuts of formats free of charge for orders > 1 sales unit (formats can be divided into halves, thirds, quarters, sixths, eighths or ninths), other sizes on request.

Item	FSC®	Thickness (mm)	Size (cm)	Weight (gsm)	Shts./unit	Colour
89054	✓	0.5	101 x 141	350	50	natural white
89101	✓	1.0	100 x 140	720	25	natural white

89251	✓	2.5	100 x 140	1900	5	natural white
89301	✓	3.0	100 x 140	2250	5	natural white

FSC® (Forest Stewardship Council) = Items with virgin cellulose fibre from sustainable forest cultivation and trade; shts. = sheets; unit = sales unit; [1] cuttings to size extra cost; [2] cuttings are not possible; [3] without 4-sided angular cut; [4] each sales unit packed separately in brown packing paper; [5] extra cost for freight and packaging; [6] sold only per complete sales unit; [7] sold 250 pieces onwards; [8] sold one sales unit onwards; [10] delivered untrimmed; [12] packed in polybags per sales unit

1.6 Blotting boards

040 – natural white

A highly absorbent, acid-free and soft-textured fleece board with good wet-strength and a high cotton fibre content, suitable for preservation and archival storage purposes. The board is pH neutral, and is manufactured without an alkaline buffer (unbuffered) and without the use of optical brightening agents.

Please note: Cuttings are not possible.

Item	Thickness (mm)	Size [2] (cm)	Weight (gsm)	Shts./unit	Colour

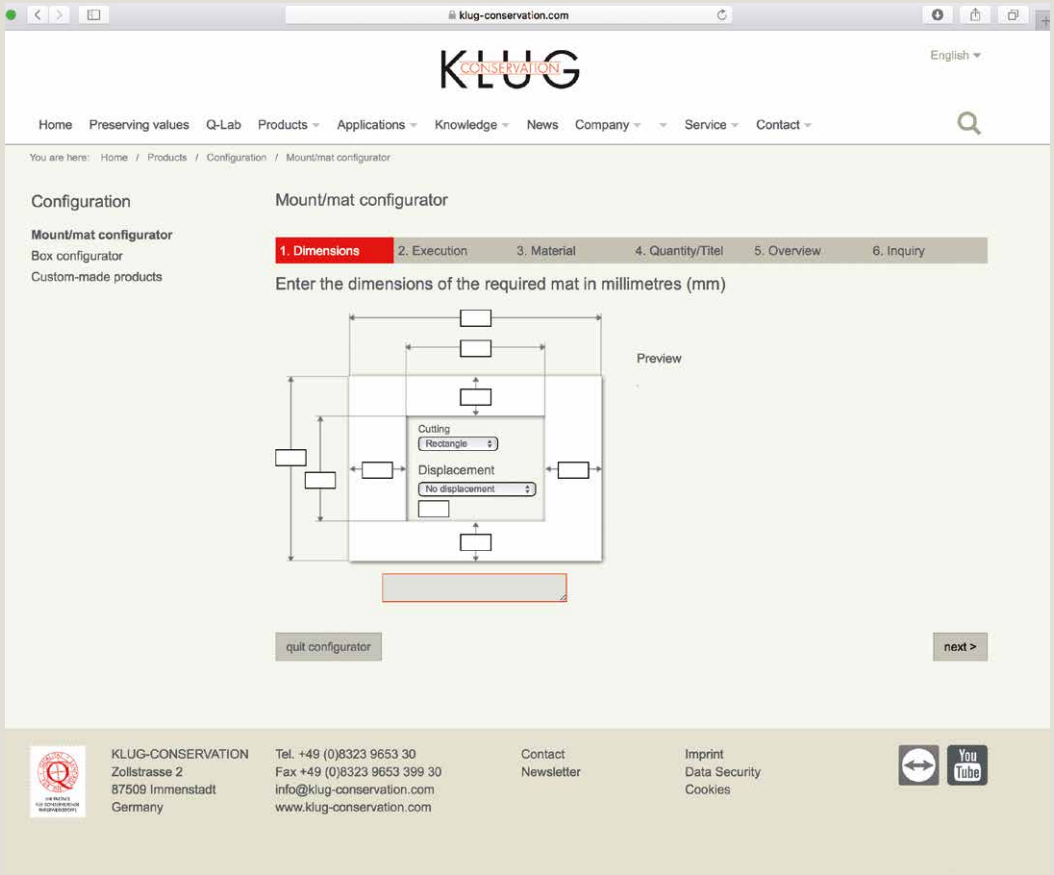
1.7 Mount configurator

Custom-made mounts

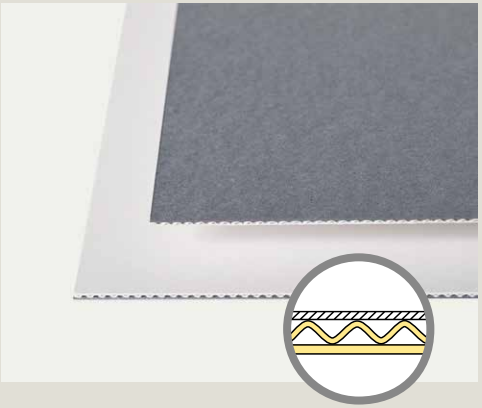
Based on our modular design concept you can configure your own individual mount (mat). Our inventory allows for a variety of combination possibilities. You will find the configurator at klug-conservation.com > Products > Configuration > Mount configurator



Mount configurator

2.1 Corrugated boards

F 1.1 mm



Corrugated board made from ageing-resistant material, overall thickness 1.1 mm, natural white in colour. Top ply made from grey-blue archival board, 190 gsm, surface specially treated, dirt-resistant, erasable and rub-proof (dry wiping). Each individual ply is glued moisture-proof. The board is ageing-resistant in accordance with the EN ISO 9706 standard and meets the material requirements of the DIN ISO 16245 – Type A. Base material used for making KLUG boxes and folders.

Item	FSC®	Thickness (mm)	Size [1] (cm)	Weight top ply (gsm)	Total weight (gsm)	Shts./unit	Colour

2.1 Corrugated boards

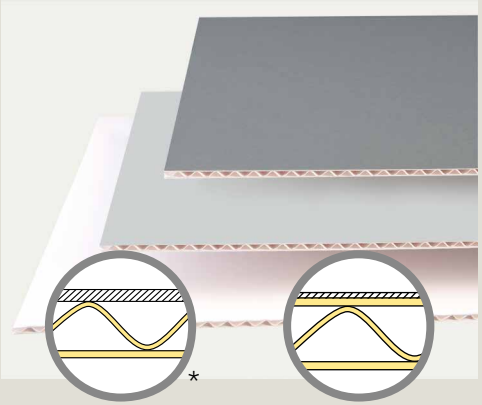
FW 3.1 mm



Corrugated board made from ageing-resistant material, overall thickness 3.1 mm, natural white in colour. Top ply made from grey-blue coloured archival board, 300 gsm or laminated with light grey (048) archival paper, 130 gsm. Surface specially treated,dirt-resistant, erasable and rub-proof (dry wiping). Each individual ply is glued moisture-proof (wet-strengthened). The board is ageing-resistant in accordance with the EN ISO 9706 standard and meets the material requirements of the DIN ISO 16245 – Type A. Base material used for making KLUG boxes and folders.

Item	FSC®	Thickness (mm)	Size [1] (cm)	Weight top ply (gsm)	Total weight (gsm)	Shts./unit	Colour
031147	✓	3.1	100 x 172*	300	680	20	grey-blue/natural white
03147107	✓	3.1	180 x 245*	300	680	5 [5]	grey-blue/natural white
031148	✓	3.1	100 x 172	130	740	20 [10]	light grey/natural white

2.1 Corrugated boards

EF 2.7 mm

Double corrugated board made of ageing-resistant material, natural white in colour. Flute thicknesses 1.6 and 1.1 mm, overall thickness 2.7 mm. The board possesses very good planarity (flatness), easy processing characteristics, is breathable and ageing-resistant in accordance with the EN ISO 9706 standard. Base material used for making KLUG boxes and folders and suitable as backing boards for conservation-quality picture framing.

Item	FSC®	Thickness (mm)	Size [1] (cm)	Weight top ply (gsm)	Total weight (gsm)	Shts./unit	Colour
0211103	✓	2.7	90 x 120	190	900	10	natural white/natural white
0211102	✓	2.7	100 x 140	190	900	20	natural white/natural white

FSC® (Forest Stewardship Council) = Items with virgin cellulose fibre from sustainable forest cultivation and trade; shts. = sheets; unit = sales unit; [1] cuttings to size extra cost; [2] cuttings are not possible; [3] without 4-sided angular cut; [4] each sales unit packed separately in brown packing paper; [5] extra cost for freight and packaging; [6] sold only per complete sales unit; [7] sold 250 pieces onwards; [8] sold one sales unit onwards; [10] delivered untrimmed; [12] packed in polybags per sales unit

2. Corrugated Boards

2.1 Corrugated boards

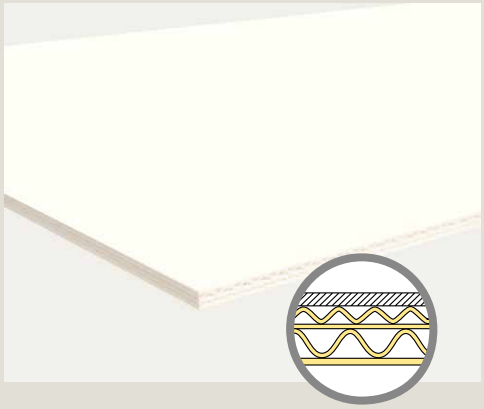
EF 2.7 mm – bended

Ageing-resistant, double corrugated board with curved design, particularly suitable as backing boards for conservation quality picture framing. Natural white in colour, flute thickness 1.6 and 1.1 mm, overall thickness 2.7 mm. The curved design presses objects against a flat surface – perfect for securely fixing originals in picture frames without stress or damage. Equally effective for stretcher frames to keep canvases perfectly stabilized. Easy to handle, breathable, and compliant with EN ISO 9706 standard for archival quality. Due to its curvature along the narrow side, delivery requires a specially designed curved pallet.

Item	FSC®	Thickness (mm)	Size [2] (cm)	Weight top ply (gsm)	Total weight (gsm)	Shts./unit[12]	Colour
0211103GK	✓	2.7	90 x 120	190	900	10	natural white/natural white
0211102GK	✓	2.7	100 x 140	190	900	20	natural white/natural white

2.1 Corrugated boards

EF 3.0 mm



Double corrugated board made of ageing-resistant material, natural white in colour. Flute thicknesses 1.6 and 1.1 mm, overall thickness 3.0 mm. Top ply made from conservation board, natural white, weight 365 gsm. The board possesses very good planarity (flatness), easy processing characteristics, is breathable and ageing-resistant in accordance with the EN ISO 9706 standard. Ideal as backing boards for conservation-quality picture framing.

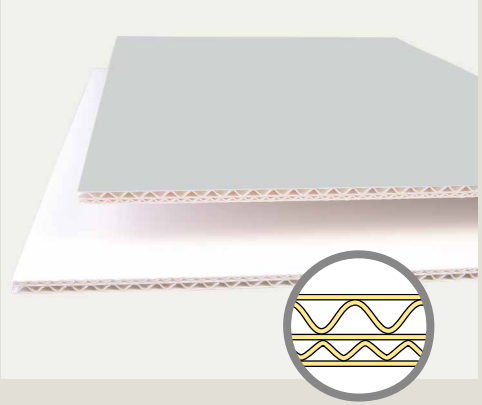
Item	FSC®	Thickness (mm)	Size [1] (cm)	Weight top ply (gsm)	Total weight (gsm)	Shts./unit	Colour
0211117	✓	3.0	90 x 120	365	1100	10	natural white/offwhite
02111178	✓	3.0	100 x 140	365	1100	10	natural white/offwhite
02111170	✓	3.0	180 x 220	365	1100	3 [4] [5]	natural white/offwhite

FSC® (Forest Stewardship Council) = Items with virgin cellulose fibre from sustainable forest cultivation and trade; shts. = sheets; unit = sales unit; [1] cuttings to size extra cost; [2] cuttings are not possible; [3] without 4-sided angular cut; [4] each sales unit packed separately in brown packing paper; [5] extra cost for freight and packaging; [6] sold only per complete sales unit; [7] sold 250 pieces onwards; [8] sold one sales unit onwards; [10] delivered untrimmed; [12] packed in polybags per sales unit

2. Corrugated Boards

2.1 Corrugated boards

EB 4.5 mm

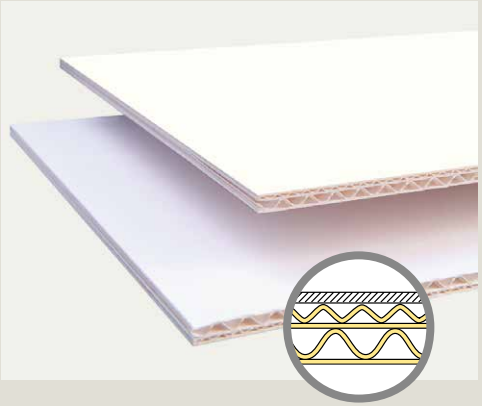


Double wall corrugated board made from ageing-resistant material, natural white in colour. Flute thicknesses 3.0 and 1.5 mm, overall thickness 4.5 mm. Top ply printed light grey. The board possesses very good planarity (flatness), easy processing characteristics, is breathable and ageing-resistant in accordance with the EN ISO 9706 standard. Base material used for making KLUG boxes and folders and suitable as backing boards for conservation-quality picture framing.

Item	FSC®	Thickness (mm)	Size [1] (cm)	Weight top ply (gsm)	Total weight (gsm)	Shts./unit	Colour
021-0315	✓	4.5	110 x 172	190	940	10	light grey/natural white

2.1 Corrugated boards

EB 5.0 mm



Double wall corrugated board made from ageing-resistant material, natural white in colour. Flute thicknesses 3.0 and 1.5 mm, overall thickness 5.0 mm. Top ply made from 365 gsm conservation board, natural white. The board possesses very good planarity (flatness), easy processing characteristics, is breathable and ageing-resistant in accordance with the EN ISO 9706 standard. Base material used for making KLUG boxes and folders and suitable as backing boards for conservation-quality picture framing.

Item	FSC®	Thickness (mm)	Size [1] (cm)	Weight top ply (gsm)	Total weight (gsm)	Shts./unit	Colour
02131176	✓	5.0	180 x 120	365	1160	10	natural white/offwhite

FSC® (Forest Stewardship Council) = Items with virgin cellulose fibre from sustainable forest cultivation and trade; shts. = sheets; unit = sales unit; [1] cuttings to size extra cost; [2] cuttings are not possible; [3] without 4-sided angular cut; [4] each sales unit packed separately in brown packing paper; [5] extra cost for freight and packaging; [6] sold only per complete sales unit; [7] sold 250 pieces onwards; [8] sold one sales unit onwards; [10] delivered untrimmed; [12] packed in polybags per sales unit

2. Corrugated Boards

2.1 Corrugated boards

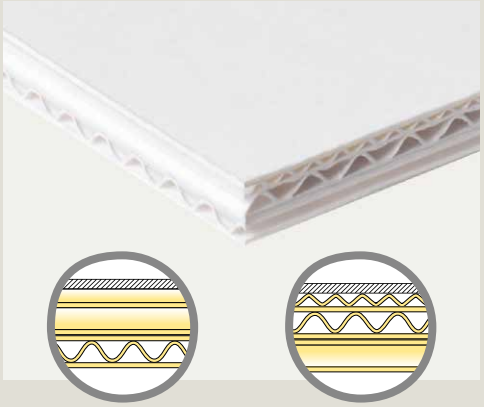
BC 6.4 mm

Double wall corrugated board made from ageing-resistant material, natural white in colour. Flute thicknesses 3.0 and 3.4 mm, overall thickness 6.4 mm. Top ply made from archival board light grey. Each individual ply is glued moisture-proof. The board is ageing-resisitant in accordance with the EN ISO 9706 standard. Base material used for making KLUG boxes and folders and suitable as backing boards for conservation-quality picture framing.

Item	FSC®	Thickness (mm)	Size [1] (cm)	Weight top ply (gsm)	Total weight (gsm)	Shts./unit	Colour
0314107	✓	6.4	246 x 180	190	960	5 [5]	light grey/natural white

2.1 Corrugated boards

EBB 8.0 mm



Triple wall corrugated board made from ageing-resistant material, natural white in colour. Flutes thicknesses 3.0, 1.5 and 3.0 mm. Top ply made from conservation board, natural whiter, weight 365 gsm, overall board thickness 8.0 mm. Flutes in cross-wise direction (cross-laminated). The board possesses very good planarity (flatness), easy processing characteristics, is breathable and ageing-resisitant in accordance with the EN ISO 9706 standard. Suitable as backing boards for conservation-quality picture framing.

Item	FSC®	Thickness (mm)	Size [1] (cm)	Weight top ply (gsm)	Total weight (gsm)	Shts./unit	Colour
0213131176	✓	8.0	120 x 180	365	1735	5	natural white/offwhite

3. Honeycomb Panels

3.1 Honeycomb panels

071 – natural white

Honeycomb panels made of ageing-resistant material in accordance with the EN ISO 9706. Very suitable as backing boards to support large works of art such as graphics, placards, textiles, paintings and wallpapers. The panels are manufactured without using optical brightening agents and have passed the Photographic Activity Test (PAT) in accordance with ISO 18916.

Item	FSC®	Thickness (mm)	Size [1] (cm)	Weight (gsm)	Shts./unit [5]	Colour
071125173	✓	13.0	125 x 173	1350	8	natural white
071173250	✓	13.0	173 x 250	1350	4	natural white

3.1 Honeycomb panels

079 – natural white, with wave structure

Honeycomb panels with wave structure, made of ageing-resistant material in accordance with the EN ISO 9706. Very suitable as backing boards to support large works of art such as graphics, placards, textiles, paintings and wallpapers. The panels are manufactured without using optical brightening agents and have passed the Photographic Activity Test (PAT) in accordance with ISO 18916.

Item	FSC®	Thickness (mm)	Size [1] (cm)	Weight (gsm)	Shts./unit [5]	Colour
0797126200	✓	7.0	126 x 200	1350	5	natural white

FSC® (Forest Stewardship Council) = Items with virgin cellulose fibre from sustainable forest cultivation and trade; shts. = sheets; unit = sales unit; [1] cuttings to size extra cost; [2] cuttings are not possible; [3] without 4-sided angular cut; [4] each sales unit packed separately in brown packing paper; [5] extra cost for freight and packaging; [6] sold only per complete sales unit; [7] sold 250 pieces onwards; [8] sold one sales unit onwards; [10] delivered untrimmed; [12] packed in polybags per sales unit

4. Paper

4.1 Archival paper

047 – grey-blue / 048 – light grey

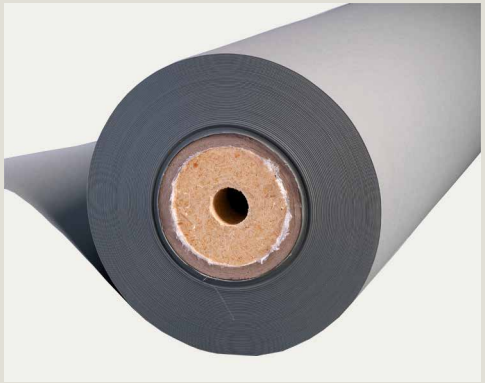
Ageing-resistant, solid coloured archival paper sheets – suitable for the usage as interleaving sheets in files and folders. Due to special surface treatment dirt-resistant, erasable and rub-proof (dry wiping). The paper possesses excellent light-fastness.

Cuttings: Rough cuts of formats free of charge for orders > 1 sales unit (formats can be divided into halves, thirds, quarters, sixths, eighths or ninths), other sizes on request.

Item	FSC®	Weight (gsm)	Size (cm)	Thickness (mm)	Grain	Shts./unit	Colour
047/130	✓	130	101 x 173	0.15	long grain	100	grey-blue solid colour
048/130	✓	130	101 x 173	0.15	long grain	100	light grey solid colour

4.1 Archival paper

047 – grey-blue archival paper on reels



Ageing-resistant, solid grey-blue archival paper rolled on reels – suitable for the usage as interleaving sheets in files and folders. Due to special surface treatment dirt-resistant, erasable and rub-proof (dry wiping). The paper possesses excellent light-fastness.

Delivery: Packed in a box made of corrugated board, weight/reel approximately 24 kg.

Item	FSC®	Weight (gsm)	Thickness (mm)	Reel width [2] (cm)	Running metres (m)	Reel/unit	Colour
04713	✓	130	0.15	120	150	1	grey-blue solid colour

FSC® (Forest Stewardship Council) = Items with virgin cellulose fibre from sustainable forest cultivation and trade; shts. = sheets; unit = sales unit; [1] cuttings to size extra cost; [2] cuttings are not possible; [3] without 4-sided angular cut; [4] each sales unit packed separately in brown packing paper; [5] extra cost for freight and packaging; [6] sold only per complete sales unit; [7] sold 250 pieces onwards; [8] sold one sales unit onwards; [10] delivered untrimmed; [12] packed in polybags per sales unit

4.2 Museum Paper

light white – with an alkaline buffer

Ageing-resistant, white coloured museum and photographic archival paper with an alkaline buffer, suitable as photocopy paper, for wrapping, for printing labels and as interleaving sheets in folders, spans, files and binders. The paper has passed the Photographic Activity Test (PAT) in accordance with the ISO 18916 standard.

Cuttings: Rough cuts of formats free of charge for orders > 1 sales unit (formats can be divided into halves, thirds, quarters, sixths, eighths or ninths), other sizes on request.

Item	FSC®	Weight (gsm)	Size (cm)	Thickness (mm)	Shts./unit	Colour

FSC® (Forest Stewardship Council) = Items with virgin cellulose fibre from sustainable forest cultivation and trade; shts. = sheets; unit = sales unit

[1] cuttings to size extra cost; [2] cuttings are not possible; [3] without 4-sided angular cut; [4] each sales unit packed separately in brown packing paper; [5] extra cost for freight and packaging; [6] sold only per complete sales unit

4.2 Museum paper

coloured – with an alkaline buffer

Coloured, ageing-resistant museum paper with an alkaline reserve offering maximum permanency. Suitable as photocopy paper and as interleaving sheets in folders, spans, files and binders.

Cuttings: Rough cuts of formats free of charge for orders > 1 sales unit (formats can be divided into halves, thirds, quarters, sixths, eighths or ninths), other sizes on request.
Please note: The illustrated surface colours and structures approximately match the actual products. For exact colour and surface structure please request for a sample.

Item	Weight (gsm)	Size (cm)	Thickness (mm)	Shts./unit	Colour

4.3 Photographic archival paper

natural white – without an alkaline buffer

Natural white coloured photographic archival paper without an alkaline buffer and with a pH of 7.0. The paper is acid-free, manufactured without optical brightening agents and is suitable for the archival storage of photographs, aquarell paintings, graphics and textiles.
The paper has passed the Photographic Activity Test (PAT) in accordance with ISO 18916.
Cuttings: Rough cuts of formats free of charge for orders > 1 sales unit (formats can be divided into halves, thirds, quarters, sixths, eighths or ninths), other sizes on request.

Item	FSC®	Weight (gsm)	Size (cm)	Thickness (mm)	Shts./unit	Colour

FSC® (Forest Stewardship Council) = Items with virgin cellulose fibre from sustainable forest cultivation and trade; shts. = sheets; unit = sales unit; [1] cuttings to size extra cost; [2] cuttings are not possible; [3] without 4-sided angular cut; [4] each sales unit packed separately in brown packing paper; [5] extra cost for freight and packaging; [6] sold only per complete sales unit; [7] sold 250 pieces onwards; [8] sold one sales unit onwards; [10] delivered untrimmed; [12] packed in polybags per sales unit

4.4 Japanese paper

Japanese paper – sheets

Japanese paper sheets without an alkaline buffer, weight 9.0 gsm, machine glazed single-sided. Suitable as interleaving sheets for archiving, conservation and preservation purposes – for example to laminate objects, repair cracks and fissures and also to mount objects such as graphics and photographs etc. Manufactured from long-fibred cellulose (Abaca/Manila hemp, bleached/totally chlorine-free) and without the use of optical brightening agents.

Item	Weight (gsm)	Size [2] (cm)	pH value	Shts./unit [4] [6]	Colour
010096191	9.0	61 x 91	7.0	500	white

4.4 Japanese paper

Japanese paper – on reels

Japanese paper without an alkaline buffer, rolled on small reels, weight 9.0 gsm, width 2 or 3 cm, reel length 150 m. Suitable as interleaving sheets for archiving, conservation and preservation purposes – for example to laminate objects, to repair cracks and fissures and also to mount objects such as graphics and photographs etc. Manufactured from long-fibred cellulose (Abaca/Manila hemp, bleached/totally chlorine-free) and without the use of optical brightening agents.

Item	Weight (gsm)	Reel width [2] (cm)	Running metres (m)	pH value	Reel/unit	Colour
010097	9.0	2	150	7.0	1	white
010098	9.0	3	150	7.0	1	white

FSC® (Forest Stewardship Council) = Items with virgin cellulose fibre from sustainable forest cultivation and trade; shts. = sheets; unit = sales unit; [1] cuttings to size extra cost; [2] cuttings are not possible; [3] without 4-sided angular cut; [4] each sales unit packed separately in brown packing paper; [5] extra cost for freight and packaging; [6] sold only per complete sales unit; [7] sold 250 pieces onwards; [8] sold one sales unit onwards; [10] delivered untrimmed; [12] packed in polybags per sales unit

4.5 Silk tissue paper

Silk tissue paper sheets – without alkaline buffer

Silk tissue paper without an alkaline buffer, machine glazed single-sided, pH 7.0, acid-free and manufactured without the usage of optical brightening agents. Suitable as as wrapping paper for the archival storage of photographs, aquarelle paintings. The tissue paper has passed the Photographic Activity Test (PAT) in accordance with ISO 18916.

Item	FSC®	Weight (gsm)	Size [2] (cm)	pH value	Shts./unit [4] [6]	Colour
0101-52	✓	17 – 18	75 x 50	7.0	1000	white

0101	✓	17 – 18	75 x 100	7.0	500	white

4.5 Silk tissue paper

Silk tissue paper on reels – without alkaline buffer

Silk tissue paper without an alkaline buffer, rolled on reels, machine glazed single-sided, pH 7.0, acid-free and manufactured without the usage of optical brightening agents. Suitable as wrapping paper for the archival storage of photographs, paintings, graphics and textiles and as padding material for delicate objects. The tissue paper has passed the Photographic Activity Test (PAT) in accordance with ISO 18916.

Item	FSC®	Weight (gsm)	Reel width [2] (cm)	Running metres (m)	pH value	Reel/unit	Colour
010182	✓	18	130	500	7.0	1	white

FSC® (Forest Stewardship Council) = Items with virgin cellulose fibre from sustainable forest cultivation and trade; shts. = sheets; unit = sales unit; [1] cuttings to size extra cost; [2] cuttings are not possible; [3] without 4-sided angular cut; [4] each sales unit packed separately in brown packing paper; [5] extra cost for freight and packaging; [6] sold only per complete sales unit; [7] sold 250 pieces onwards; [8] sold one sales unit onwards; [10] delivered untrimmed; [12] packed in polybags per sales unit

4.5 Silk tissue paper

Silk tissue paper sheets – with an alkaline buffer

White coloured silk tissue paper, buffered with natural calcium carbonate (GCC), pH between 8.0 – 9.5, acid-free and manufactured without the usage of optical brightening agents. Suitable as wrapping paper for archival storage of photographs, aquarelle paintings, graphics and textiles. The tissue paper has passed the Photographic Activity Test (PAT) in accordance with ISO 18916.

Item	FSC®	Weight (gsm)	Size [2] (cm)	pH value	Shts./unit [4] [6]	Colour
01034	✓	28	76 x 100	8.0 – 9.5	250	white
0103	✓	28	76 x 100	8.0 – 9.5	500	white

4.5 Silk tissue paper

Silk tissue paper on reels – with an alkaline buffer

White silk tissue paper rolled on reels, buffered with natural calcium carbonate (GCC), pH between 8.0 – 9.5, acid-free and manufactured without the usage of optical brightening agents. Suitable as wrapping paper for archiving photographs, aquarelle paintings, graphics, textiles and as padding material for delicate objects. The tissue paper has passed the Photographic Activity Test (PAT) in accordance with ISO 18916.

Item	FSC®	Weight (gsm)	Reel width [2] (cm)	Running metres (m)	pH value	Reel/unit	Colour
01031	✓	21	100	500	8.0 – 9.5	1	white

FSC® (Forest Stewardship Council) = Items with virgin cellulose fibre from sustainable forest cultivation and trade; shts. = sheets; unit = sales unit; [1] cuttings to size extra cost; [2] cuttings are not possible; [3] without 4-sided angular cut; [4] each sales unit packed separately in brown packing paper; [5] extra cost for freight and packaging; [6] sold only per complete sales unit; [7] sold 250 pieces onwards; [8] sold one sales units onwards; [10] delivered untrimmed; [12] packed in polybags per sales unit

4.6 Glassine paper

Glassine paper transparent – sheets

Transparent glassine paper without an alkaline buffer, pH between 6.9 – 7.2, acid-free, manufactured without the usage of optical brightening agents. Suitable for the archival storage of photographs and negatives. The glassine paper has passed the Photographic Activity Test (PAT) in accordance with ISO 18916.

Item	FSC®	Weight (gsm)	Size [2] (cm)	pH value	Shts./unit [4] [6]	Colour
0102	✓	30	70 x 100	6.9 – 7.2	500	transparent
01024	✓	30	70 x 100	6.9 – 7.2	250	transparent

4.6 Glassine paper

Glassine paper transparent – on reels

Transparent glassine paper rolled on reels, without an alkaline buffer, pH between 6.9 – 7.2, acid-free, manufactured without the usage of optical brightening agents. Suitable for the archival storage of photographs and negatives. The glassine paper has passed the Photographic Activity Test (PAT) in accordance with ISO 18916.

Item	FSC®	Weight (gsm)	Reel width [2] (cm)	Running metres (m)	pH value	Reel/unit	Colour
01022	✓	30	120	500	6.9 – 7.2	1	transparent
01025	✓	90	157	50	6.9 – 7.2	1	transparent

FSC® (Forest Stewardship Council) = Items with virgin cellulose fibre from sustainable forest cultivation and trade; shts. = sheets; unit = sales unit; [1] cuttings to size extra cost; [2] cuttings are not possible; [3] without 4-sided angular cut; [4] each sales unit packed separately in brown packing paper; [5] extra cost for freight and packaging; [6] sold only per complete sales unit; [7] sold 250 pieces onwards; [8] sold one sales units onwards; [10] delivered untrimmed; [12] packed in polybags per sales unit

4.7 Blotting paper

Blotting paper natural white – sheets

Neutral, acid-free, ageing-resistant, soft absorbent blotting paper sheets manufactured without an alkaline buffer (unbuffered) and without optical brightening agents. The relatively rough yet soft surface makes the paper ideal for use as intermediate layers, in folders and preservation booklets. Originals placed on or between this paper, slide around less, which reduces mechanical strain on the originals – a characteristics that is much appreciated by conservators.

Item	Weight (gsm)	Thickness (mm)	Size (cm)	Grain	Shts./unit [4]	Colour
04007	120	0.25	102 x 95	short grain	100	natural white
04008	120	0.25	122 x 92	short grain	100	natural white

4.7 Blotting paper

Blotting paper natural white – on reels

Neutral, acid-free, ageing-resistant, soft absorbent reeled blotting paper manufactured without an alkaline buffer (unbuffered) and without optical brightening agents. The relatively rough yet soft surface makes the paper ideal for use as intermediate layers, in folders and preservation booklets. Originals placed on or between this paper, slide around less, which reduces mechanical strain on the originals – a characteristics that is much appreciated by conservators.

Item	Weight (gsm)	Thickness (mm)	Reel width (cm)	Running metres (m)	Reel/unit [2]	Colour

5.1 Clamshell boxes

KS 3 – with fastening ribbons

A KS 3 tightly closing clamshell box with textile polyester fastening ribbons. The ribbons can be attached individually. The box is made from corrugated board material, MW 1.7, 680 gsm, exterior box colour grey-blue/interior colour natural white. Ideal for the archival storage of books, files/folders, documents and two-dimensional objects.

Other box sizes on request.

5.1 Clamshell boxes

KS 17 Albertina

A tightly closing clamshell box with extra supports - ideal for graphic collections. Smooth interior and exterior surfaces. When closed, the box has a double-walled spine and even eightfold wall-thickness on three sides ensuring highest stability. Additional supports in bottom and lid for extra strength. Even though absolutely dustproof, the box is still breathable.

Delivered assembled and ready-for-use.

5. Boxes

5.1 Clamshell boxes

KS18 Premium

A tightly closing, premium clamshell box; a more elaborate version of the known „Solander Box". Manufactured whilst using the finest book binding methods, this classical drop-back clamshell box is produced from solid conservation board with a complete fabric lining. Special emphasis has been given to ageing resistant and environmentally compatibile (less-polluting) materials. Delivered assembled and ready-for-use.

Item	For format	Int. dimensions (max.) [5] [9] H x W x T (mm)	Height (max.) (mm)	Material (mm)

5.3 Archival boxes

KS 19 – for horizontal storage

An archival box made of two parts, the corpus includes a slide-in base tray (can be pulled out) with an attached drop-front flap. Ideal for the storage of expansion folders, unbound and loose-leaf collections and for newspapers. For storage purposes the boxes can be stacked horizontally, one upon each other. Also available as a single box piece with an attached drop-front flap.

5.4 Archival boxes for roll storage

KS 16 – Two-piece box

Roll storage boxes suitable for large-size and delicate archival objects. (e.g. geographical/architectural maps, textiles etc.) The tube in the box is made from spirally wound conservation board and is supported by two layers of corrugated board. In this way absolutely no pressure is exposed on the stored object. Two textile ribbons enhance easy manoeuvrability of of the tube. Delivered assembled and ready-for-use.

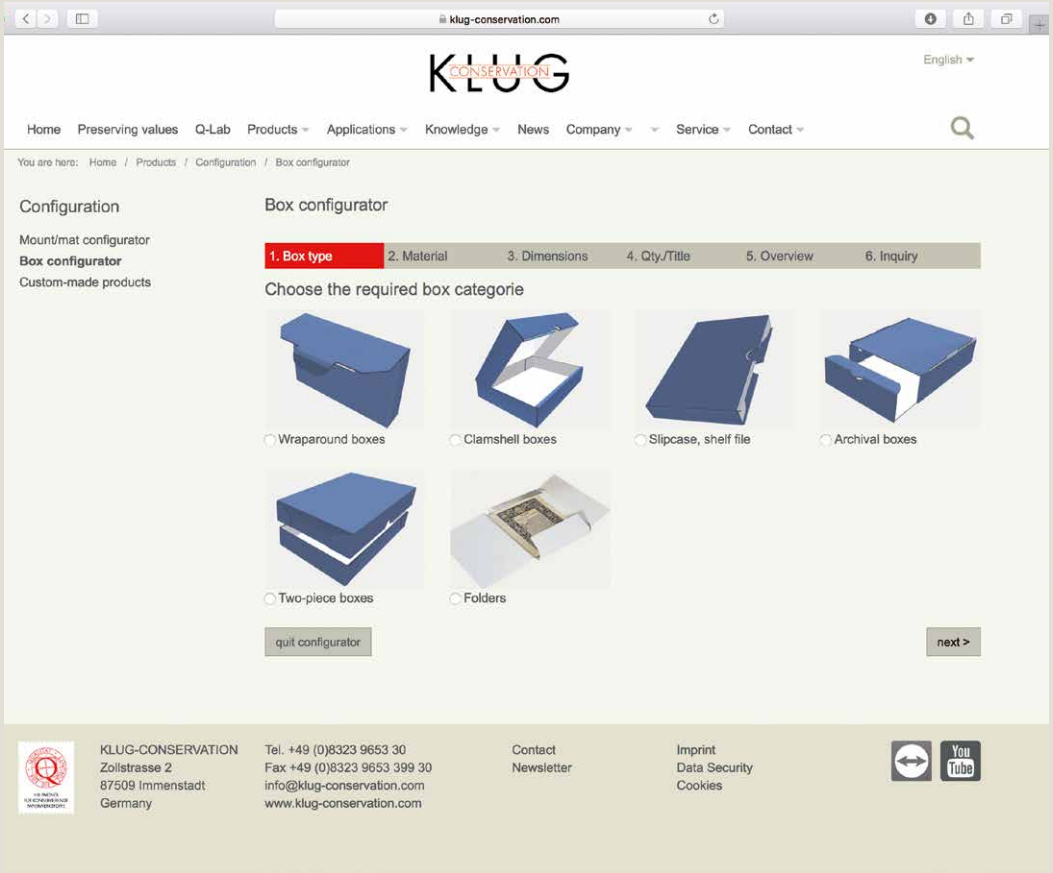
5.8 Box configurator

Custom-made boxes

Based on our modular design concept you can configure your individual box. Our inventory allows for a variety of combination possibilities.
You will find the configurator at klug-conservation.com > Products > Configuration > Box configurator

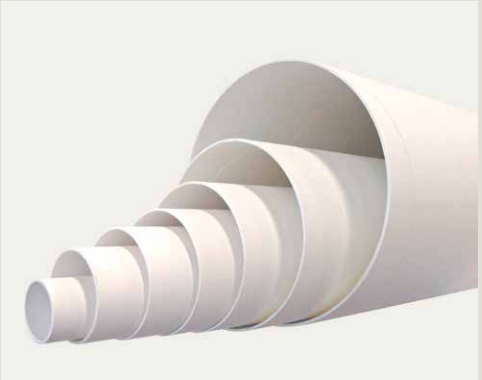


Box configurator

6. Tubes

6.1 Tubes

– made from conservation board



Tubes made from spiral-wound, natural white, ageing-resistant conservation board. Board plies are glued with a quality tested lamination glue, pH neutral and free of softening agents. Cutting to customer size on request, tubes available in various diameter sizes and can be cut to a max. length of 10 m. Tube joining segments are also available to extend the lengths of 150/200 mm diameter tubes to a max. of 4200 mm.

Item	FSC®	Wall thickness (mm)	Tube diameter (Ø mm)	Length [1] (mm)	Tube/unit [5]	Colour
01911101	✓	2.0	100	2100	1 tube	natural white

[1] cuttings to size extra cost; [2] cuttings are not possible; [3] without 4-sided angular cut; [4] each sales unit packed separately in brown packing paper; [5] extra cost for freight and packaging; [6] sold only per complete sales unit

7. Cardboard pages/Folders

7.1 Cardboard pages

– with 2-hole or 4-hole perforation

Cardboard pages with 2-hole or 4-hole perforation (according to ISO standard). Suitable as covers/dividers for A4-files or for mounting purposes. Made from archival board 048 light grey, either 240 or 330 gsm, surface-refined, dirt-resistant, erasable and rub-proof (resistant to dry wiping). Customized cardboard pages on request (after technical clarification).

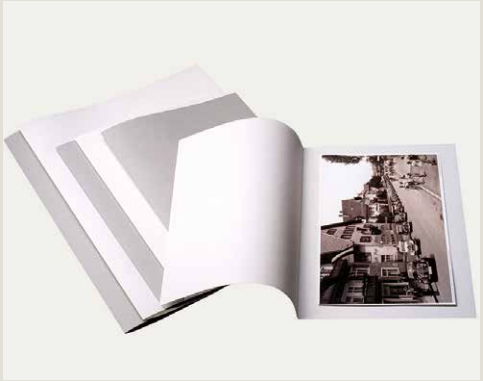
Item	FSC®	Design	Size H x W (mm)	Material, weight (gsm), colour	Pages/unit [6]
048100	✓	2-hole perforation	310 x 218	archival board 048, 240 gsm – light grey	50
048101-3	✓	2-hole perforation	310 x 218	archival board 048, 330 gsm – light grey	50
04810175	✓	4-hole perforation	310 x 240	archival board 048, 330 gsm – light grey	50
04810182		4-hole perforation	325 x 270	archival board 048, 330 gsm – light grey	50
04810127		2-hole perforation	350 x 230	archival board 048, 240 gsm – light grey	50
04810156	✓	2-hole perforation	350 x 230	archival board 048, 330 gsm – light grey	50

FSC® (Forest Stewardship Council) = Items with virgin cellulose fibre from sustainable forest cultivation and trade; unit = sales unit; H = height; W = width; T = thickness; D = depth; L = length

[6] sold only per complete unit

7. Cardboard pages/Folders

7.2 Folders without flaps



Folders without flaps made from archival board with a centred groove or museum paper with a centred fold, suitable for storing all types of documents, manuscripts, drawings, posters etc. A very reasonable and inexpensive archiving system.

Upon request we also deliver A4 size with pre-punched holes for ring-binding or with attached textile ribbons.

7.3 Folders with flaps

Juris folders (standard assortment ex-stock)

Folders with flaps, also called expansion or "Juris folders", are made from a single sheet, with multiple grooves on the flaps. Customer imprints possible. The folders can be delivered with loose or pre-stuck base reinforcements. This prevents the originals being archived against external damages that can get caused due to bending. This minimal enhancement increases the value-for-money aspect to a great degree.

A large range of standard sizes available ex-stock.

Item	FSC®	For size/format design	Int. dimensions H x W x T (mm)	Material, weight (gsm), colour

7.3 Folders with flaps

Folders with three flaps, slits and ribbons

Three-flap folder with slits and textile closure ribbons, ideal for storing brochures, bundles, leaflets and other kinds of flat documents. The folder is made from archival board 047, 330 gsm, grey-blue in colour. Due to special surface treatment dirt-resistant, erasable and rub-proof (dry wiping). Variable filing depth thanks to multi-groove flaps. Closure ribbon supplied uncut on a roll. Custom formats upon request.

7.3 Folders with flaps

Graphic folders – with glued on flaps and ribbons

Depending on the format, flaps are glued on the exterior or attached with black mesh shirting ribbon. This creates smooth inner surfaces. The lid is attached with black mesh shirting ribbon. Three ribbon pairs are provided for closure. The document folders, also referred to as drawing, artwork or archival folders, are often used to store valuable maps, plans, posters, documents and individual pictures.

7.3 Folders with flaps

KSM 22 – with fixed filing depth

The KSM 22 with a fixed filing depth is a very form-stable and sturdy folder made from aging-resistant corrugated board, ideal for standard filing or archiving systems. Especially designed to accomodate delicate, thin items from 5 mm thickness onwards, without compromising on archival protection. A practical locking tab on the cover and a side insertion slot ensure secure closure and easy handling in everyday use.

8.1 Folder enclosures

– made from opaque paper

Folder enclosures made from unbuffered, opaque photographic archival paper 120 gsm or buffered natural white coloured museum paper 120 gsm, light white. The enclosure is open on three sides and has a 10 mm longer back flap for inscription purposes. These enclosures are ideally suitable for the archival storage of prints, negatives, glass plates etc.

The paper has passed the Photographic Activity Test (PAT) in accordance with ISO 18916.

8.2 Envelopes U-style

– made from transparent paper

The transparent archival paper developed by KLUG-CONSERVATION differs from conventional glassine papers in that it is manufactured according to our own specifications from 100% pure virgin fibers and is free from sulfur, acids, lignin, plasticizers and metals. These photo archival envelopes are ideal for the preservation of photographic prints, negatives and glass plates. The opening is located on the long side. The paper and adhesive have passed the Photographic Activity Test (PAT) in accordance with ISO 18916. Other sizes and formats are available upon request.

8.2 Envelopes U-style

– made from opaque paper

Premium-quality photographic archival envelopes with exterior gumming for storage of prints, negatives, microfiches and glass plates. The envelopes are made from ageing-resistant photographic archival paper with the opening located on the long side. Available buffered or unbuffered and in white or natural white. Smooth interior surfaces due to exterior gumming. The stored object has no contact with the gummed flap and is safe from any rubbing or chafing that may otherwise be caused by paper edges located inside the envelope. Paper and glue have passed the Photographic Activity Test (PAT) according to ISO 18916.

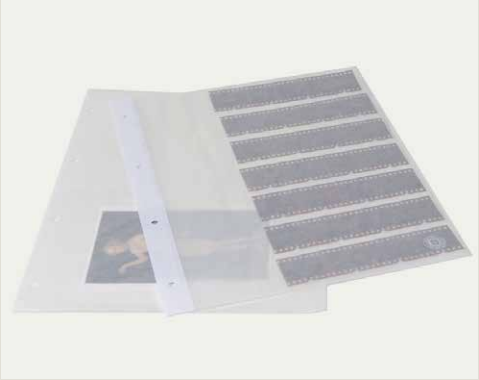
8.4 Binder pocket pages

– made from transparent paper



Binder pocket pages made from transparent archival paper without an alkaline buffer, with reinforced, standard 4-hole binder-edges. Available for 35 mm, 6 x 6 cm negative strips (pocket opening on the side), for A4/A6 sizes and standard photo sizes (pocket opening on top). Other sizes on request. Paper and adhesive have passed the Photographic Activity Test (PAT) in accordance with ISO 18916.

Item	FSC®	For size (cm/inch)/format	Pocket dimens. H x W (mm)	Page dimens. H x W (mm)	Material, weight (gsm), colour	Pages/ unit
3222	✓	4 pockets 6 x 6 cm, 6 x 9 cm (negative strips)	70 x 185	305 x 215	archival paper, 40, transparent	1000
3204		1 pocket 18 x 24 cm, 8 x 10", A4	300 x 215	305 x 240	archival paper, 40, transparent	1000
3221	✓	7 pockets 35 mm-film (negative strips)	35 x 225	305 x 252	archival paper, 40, transparent	1000
3226	✓	4 pockets 9 x 12 cm, 9 x 13 cm, 3.5 x 5"	142 x 100	310 x 238	archival paper, 40, transparent	1000
3225	✓	2 pockets 10 x 15 cm, 13 x 18 cm, A6 4 x 6", 5 x 7"	145 x 197	310 x 238	archival paper, 40, transparent	1000

8.4 Binder pocket pages

– made from opaque paper

Binder pocket pages made from opaque archival paper without an alkaline buffer, with reinforced, standard 4-hole binder-edges. Available for A5/A6 sizes and for standard photo sizes (pocket opening on top). Other sizes on request. Paper and adhesive have passed the Photographic Activity Test (PAT) in accordance with ISO 18916.

Item	FSC®	For size (cm/inch)/format	Pocket dimens. H x W (mm)	Page dimens. H x W (mm)	Material, weight (gsm), colour	Pages/ unit
3225-10		2 pockets 13 x 18 cm, 10 x 15 cm, A6, 5 x 7", 4 x 6"	185 x 136	303 x 210	archival paper, 90, opaque	500
3225-12	✓	1 pocket 18 x 24 cm, A5, 6 x 8"	293 x 185	303 x 210	archival paper, 90, opaque	500

8.4 Binder pocket pages

– made from polyester

Transparent SECOL polyester binder pocket pages available in various formats. Made from either AS-Polyester or P1-Polyester material, 0.075 mm (75 micron) thickness, with standard 4-hole binder-edge.

Photographic Activity Test (PAT) passed in accordance with the ISO 18916 standard.

Item	For size/format (cm)	No. of pockets	Pocket size H x W (mm)	Ext. dimensions H x B (mm)	Material	Pages/ unit
6221	35 mm-film negative strips	7	42 x 230	317 x 260	SECOL AS-Polyester, transparent	50

8.5 Four flap folders

– unbuffered and buffered qualities

Seamless, four flap folder enclosures folded from a single sheet. made of either opaque, unbuffered, photographic archival paper or buffered, natural white coloured museum paper. These folder enclosures are suitable for archiving glass plates, valuable photographs and negatives. The maximum filling depth is 3 mm. Other sizes available on request.

Both papers have successfully passed the Photographic Activity Test (PAT) in accordance with ISO 18916.

Item	FSC®	For size (cm)	Int. dimensions W x H (mm)	Ext. dimensions W x H (mm)	Material, weight (gsm), colour	Folder/unit

8.6 Envelopes for documents

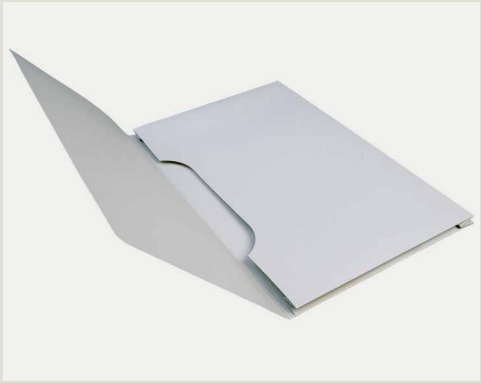
– made from archival paper

An envelope enclosure closed on all sides and thus with no loss of fragments. Ideal for archiving legal douments, certificates, manuscripts etc. The envelope is folded together, four-sided, from a single sheet of light grey or grey-blue archival paper, 130 gsm. Due to special surface treatment dirt-resistant, erasable and rub-proof (dry wiping). Other sizes on request.

Item	FSC®	Design	Int. dimensions L x W x H (mm)	Ext. dimensions L x W x H (mm)	Material, weight (gsm), colour
941151		folded from a single sheet	260 x 180 x 2	261 x 181 x 3	archival paper, 130, light grey
9411511	✓	folded from a single sheet	260 x 180 x 2	261 x 181 x 3	archival paper, 130, grey-blue
941152	✓	folded from a single sheet	325 x 230 x 2	326 x 231 x 3	archival paper, 130, light grey

8.6 Envelopes for documents

– made from archival board



An envelope enclosure closed on all sides, with block bottom and variable filling depth. No loss of fragments. Ideal for archiving legal documents, certificates, manuscripts etc. A very compact archiving method for minimum space requirement. The envelope enclosure is made from light grey coloured archival board, 240 gsm. Due to special surface treatment dirt-resistant, erasable and rub-proof (dry wiping). Other sizes on request.

Item	FSC®	Design	Int. dimensions L x W x H (mm)	Ext. dimensions L x W x H (mm)	Material, weight (gsm), colour

8.7 Seal bags

A protective bag (covering) made from permeable, ageing-resistant, pure polyester fleece, for attached, removed or hanging pendant type seals. The polyester bag provides maximum protection against damages caused by pressure implementation, wear and tear, scratches, dirt and other impurities.

Item	Seal size (Ø in mm)	Seal bag size (cm)	Thickness (mm)	Weight (gsm)	Quantity/ unit	Colour

9. Glues/Tapes

9.1 Dispersion glue

– water-based

Item	Weight (kg)	Material	Qty./unit	Colour
0198	0,1	dispersion glue	1 plastic tube	white
0199	0.5	dispersion glue	1 plastic jar	white

Dispersion glue made on an aqueous basis, plasticizer-free and pH-neutral. Suitable for both manual and machine bookbinding and laminating applications. The glue has a short open time and is particularly suitable for applications requiring fast initial adhesion of the substrates. This dispersion glue has been developed especially for the long-term preservation and archival storage of photographic items.

9.1 Tylose MH300

Item	Weight (ml)	M;aterial	Qty./unit	Colour
0203	40	Tylose cellulose glue	1 tube	transparent

A suitable glue for file preparation (treatment), mounting of objects and other applications in the conservation and preservation fields. From the conservation point-of-view, the cellulose derivative „Tylose MH300" (methyl hydroxyethyl cellulose) is a totally harmless and reversible glue. This biopolymer is usually utilized in the field of paper conservation. It is physiologically harmless and water-soluble. Micro-organisms can affect this adhesive with great difficultly.

FSC® (Forest Stewardship Council) = Items with virgin cellulose fibre from sustainable forest cultivation and trade
Unit = sales unit

9.2 Tapes

– made from paper

Paper tape made on the basis of potato starch and manufactured without the usage of softeners or plasticizers. Used for the manufacture of conservation-quality mats, mounts, file and preservation folders in the picture framing industry. Free of acidic substances.

Item	Reel width (cm)	Running metres [2] (m)	Weight (gsm)	pH value	Reel/unit	Colour
067-25/0	2.5	50	approx. 70	approx. 7.0	1	white
067-50/0	5.0	50	approx. 70	approx. 7.0	1	white

9.2 Tapes

– made from fabric

Starch-based fabric tape manufactured without the usage of softeners or plasticizers. Used for the manufacture of conservation-quality mats, mounts, file and preservation folders in the picture framing industry. Free of acidic substances. Grammage of the fabric tape including the adhesive coating is approx. 170 gsm.

Item	Reel width (cm)	Running metres [2] (m)	Weight (gsm)	pH value	Reel/unit	Colour
089-23	3.0	50	170	7.0 – neutral	1	natural white
089-24	4.0	50	170	7.0 – neutral	1	natural white
089-25	5.0	50	170	7.0 – neutral	1	natural white
089-26	6.0	50	170	7.0 – neutral	1	natural white

10. Accessories

10.1 Label paper

White coloured, conservation-quality label paper with a dextrin-based gumming. Labels are available in A4 size (one A4 sheet) as well as many other sizes (micro-perforated A4 sheets). Suitable for printing using laser, inkjet, needle, thermo-transfer printers as well as for offset print. Size, format and print colour of each label can be customized according to individual requirements.
The label can be mounted with ease by activating the gummed backside with moisture.

Item	FSC®	Weight (gsm)	Sht. size W x L (cm)	Label size H x W (mm)	Labels/shts.	Shts./unit	Colour

[1] cuttings to size extra cost; [2] cuttings are not possible; [3] without 4-sided angular cut; [4] each sales unit packed separately in brown packing paper; [5] extra cost for freight and packaging; [6] sold only per complete sales unit

10.2 Signature labels

Item	Design	Colour
1021	make signature labels	white
1023	cut and gum signature labels	white

Signature labels are made from ageing-resistant label paper of conservation-quality. Each individual label is laser printed.

We not only label individual boxes, file folders and enclosures, but on request we can have the similar labels printed (offset or silk-screen print) and brought onto any desired KLUG product.

10.3 Label frames

The main advantage of these label frames (holder) made from archival board is that the inscription can be easily removed or replaced and thus very user-friendly. The frame label can be brought on to any desired position.

Custom-made frame sizes available on request.

FSC® (Forest Stewardship Council) = Items with virgin cellulose fibre from sustainable forest cultivation and trade; shts. = sheets; unit = sales unit

[1] cuttings to size extra cost; [2] cuttings are not possible; [3] without 4-sided angular cut; [4] each sales unit packed separately in brown packing paper; [5] extra cost for freight and packaging; [6] sold only per complete sales unit

10.4 Barcode labels

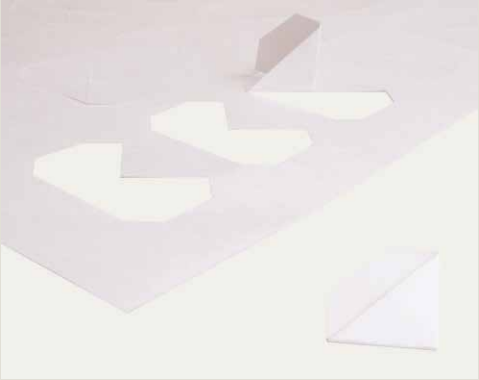
– *also used as bookmarks*

Barcode labels are made from light grey, ageing-resistant, buffered, archival paper 048, 130 gsm. It features a semi-circular cutout at the top, allowing it to be easily hung on one or more sheets. The cutout protrusion above the object is sufficiently large to accommodate standard, commercially available barcode stickers. The labels are often also used as bookmarks. The label material meets the technological requirements of ISO 9706 and has passed the PAT test (Photographic Activity Test).

Item	FSC®	Size H x W (mm)	Material	Shts./unit [6]	Colour
97-0003	✓	180 x 60	archival paper 048, 130 gsm	100	light grey
97-0001	✓	200 x 90	archival paper 048, 130 gsm	100	light grey

10.5 Mounting accessories

Mounting corners



Mounting corners used for mounting photographs, graphics and other flat originals. Made of unbuffered photographic archival paper, 120 gsm, without the usage of optical brightening agents (OBA-free).
– Cutting size 25 x 35 cm with 36 mounting corners, not broken off. Packed in plastic polythene bags, including instructions.

Item	FSC®	Weight (gsm)	Size of cutting (cm)	Size of corner (mm)	Corners/cutting [2]	Shts./unit [6] (corners)	Colour

[1] cuttings to size extra cost; [2] cuttings are not possible; [3] without 4-sided angular cut; [4] each sales unit packed separately in brown packing paper; [5] extra cost for freight and packaging; [6] sold only per complete sales unit

10.5 Mounting accessories

Mounting segments for seals

Mounting segments used to affix legal documents with attached or hanging pendant seals. Circular and angular segments - made of ageing resistant board – are most commonly used for mounting flat documents. The segments are glued either flush or offset, mounted above each other. This enables the fixation of various types of seal forms or legal documents onto flat documents without causing any damage.

Photo: City Frankfurt / Main – Institute for Municipal History – Mrs. Jana Moczarski

Item	For size (mm) design	Material (mm)	Segments/ cutting	Cuttings/unit [2]	Colour
9411100	circular segment: 27 x 96 x 12	MW 1.8	12	1	light grey/natural white
9411110	circular segment: 4 different radiuses	MW 1.8	72	1	light grey/natural white
9411120	circle diameter: 30	MW 1.8	20	1	light grey/natural white
9411130	angular segment: 35 x 35	MW 1.8	20	1	light grey/natural white

10.6 Paper fastening strips

– for roll films

Fastening strip (band) for 16 mm and 35 mm roll films made from buffered museum paper. Three slits enable easy closure. To fasten the paper strip, the end can be inserted through the slits only in one direction or additionally looped back through the first slit for a secure hold.
Fastening strips protect microfilms (film carriers) and prevents accidental unrolling. The used paper material has passed the Photographic Activity Test (PAT) in accordance with ISO 18916.
Delivered in die-cut sheet format, not punched out, and packed per unit.

Item	FSC®	For size H x W (mm)	Material, weight	Strips/unit [6]	Colour
9001952	✓	360 x 16	museum paper, 160 gsm	100	light white
9001953		360 x 35	museum paper, 160 gsm	104	light white

10.7 Polyester nonwoven fabric

– on rolls, thermally bonded

Polyester nonwoven fabric roll, 30 gsm, thermally bonded, air-permeable, chemically inert with an extremely smooth surface finish. The support fabric can be used in many different types of preservation and restoration work, e.g. to support fragile items during conservation treatments, as a release material in wet processes (carrier-support while soaking items in water) and as interleaving material.

Item	Weight (gsm)	Roll width (cm)	Running metres (m)	Material	Roll/unit [2]	Colour
9411903	30	100	50	100% polyester	1	white

10.8 Polyamide filing mechanism

Polyamide filing mechanism (clip) – archival quality filing mechanism for use with folders and punched pages. Made of 100% polyamide plastic, light grey, plasticizer-free, high tensile strength, ageing-resistant. Easy placement of paper on rounded heads of filing mechanism. Stack of bundled paper can be leafed through. Heads of archiving clips marketed since autumn 2021 fit inside commonly available file content transfer tools.

Item	Design	Material	Qty./unit	Colour
900199	filing depth 95 mm – contents of 1 file/binder	100% polyamide	1000	light grey

FSC® (Forest Stewardship Council) = Items with virgin cellulose fibre from sustainable forest cultivation and trade; shts. = sheets; unit = sales unit

[1] cuttings to size extra cost; [2] cuttings are not possible; [3] without 4-sided angular cut; [4] each sales unit packed separately in brown packing paper; [5] extra cost for freight and packaging; [6] sold only per complete sales unit

10.9 Transfer filing tool

– for KLUG filing mechanism

Item	Material	Item/unit	Colour
900200	metal	1	green/beige

Stacks of paper can be transferred easily using this transfer tool designed specifically for our KLUG filing mechanism (clips). Simply place the transfer tool on an open file mechanism or KLUG filing clip and transfer the filed contents.

Holder and side pieces are made of metal.

10.10 Albertina poultice

Item	Size [2] (cm)	Sets/unit	Colour
0512030	20 x 30	1	white
0512040	30 x 40	1	white

This enzyme poultice is a ready-for-use product for the easy removal of non-swellable starch-based (amylase) glue.

The set is available in a plastic pocket bag and comprises of two interleaving tissue papers, an amylase poultice and a moistening fleece (blotting board).

Please pay particular attention to the application instructions.

Unit = sales unit

[1] cuttings to size extra cost; [2] cuttings are not possible

10.11 Panduran pen

Item	Design	Pens/unit	Colour
11-1	pen	1	white

Since the 19th century machine-made paper and board material was generally sized with alum. This has been the main reason for the premature decay of paper. Panduran is an eriochrome dye which reacts chemically to the aluminium ions present in alum, and in the process changes from yellow to blue to violet, thus detecting the alum content in the paper being tested. This reaction is not influenced by the pH of the tested paper. Boards and papers with alum content are principally not suitable for long-term archival storage.

10.12 Set for determination of grammage

Item	Content	Set/unit
99-939	digital scale, cutter knife, cutting template, calibration weight	1

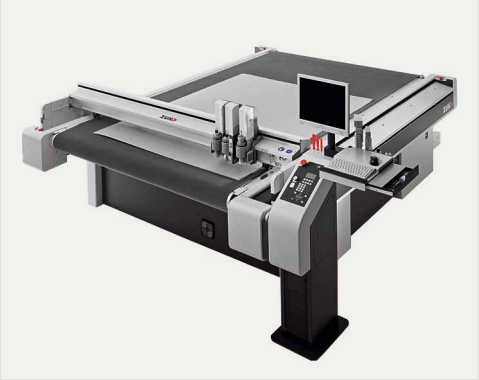
The set for determination of grammage can be used to determine the grammage of paper, board and corrugated board within minutes.
Grammage is the quotient of weight and unit area. It is stated in gsm.

Example:
One sheet of board of size 7.071 x 7.071 cm (= 50 cm²) weighs 1.5 g.
The board grammage in this case is 1.5 g / 0.005 m² = 300 gsm.

Unit = sales unit

11. Boxing System

11.1 Boxing system



A complete boxing system to produce custom-made boxes, cases, folders and other types of protective packagings especially for cultural artefacts.

All components of this system including the KLUG board and paper material supplement each other and are optimized for the individual requirements of libraries, archives and museums. The main components of the boxing system are: one or more book measuring devices, a digital cutter, CAD/CAM software to design the products.

We offer financial possibilities to either lease or purchase the boxing system.

Please contact our sales team for more information.

Storage conditions of paper and board

Recommended storage instructions for paper and board

Paper and board are materials possessing hygroscopic properties. That means they can either absorb or release moisture from the atmospheric surroundings. Hygroscopic materials are constantly trying to compensate moisture differences between the surrounding ambient air. This is a never-ending dynamic process.
Since the relative humidity depends upon the prevailing weather conditions, there are often strong fluctuations. These weather fluctuations have a significant influence on storage conditions especially in non-temperature-conditioned storage rooms.

KLUG products are produced and stored under controlled environmental conditions with a constant relative humidity between 45% and 60%. In the case of large temperature variations between the material and ambient air there is a great risk of the material warping, shrinking or in fact even increasing. (Size and format difference up to several mm possible!)

Recommended storage conditions

- Temperature 18 – 20 °C (64.4 – 68 °F)
- Relative humidity 50 – 55%

For further information regarding storage conditions of paper and board please refer to our website klug-conservation.com.

Sales terms and conditions

Prices: We offer subject to confirmation (subject to revision without notice) exclusive VAT (net value). VAT is chargeable to EU-customers, unless your VAT ID number is supplied to us. VAT is legally required on the total cost of goods and carriage. Exports outside the European Union are not subject to VAT excluding other indirect taxes and custom charges.

Payment terms: As agreed upon and specified in an offer, preferably by bank transfer in Euros with all bank charges paid.

Packaging and delivery: Packaging cost is free of charge for net order value of >= 750 Euros, excluding packaging for bulky and oversize goods. Delivery costs are calculated based on your enquiry.

Delivery instructions: Please inspect your package immediately upon delivery. In case of any visible damage, please make a note on the freight document and have it confirmed by the haulage driver before signing the receipt document. This allows us to claim compensation for damages from our transport insurance.

If the goods ordered are delivered by a shipping company under Incoterm® DAP (Delivered At Place), the consignee is responsible for unloading the goods, including parcels and pallets from the truck. Please let us know beforehand with your enquiry if you prefer a different Incoterm® and also if you do not have the necessary equipment to unload pallets or transport the goods to the building.

After coordinating with our shipping partners, we are confident that we will find a suitable solution for your requirements.

Place of performance and jurisdiction is Immenstadt in Allgaeu/Germany. Otherwise we refer to our “General business terms and conditions“.

Brochure information with effect from November 2026.
