

Alliance partner 2026

Walter Klug GmbH & Co. KG und Wegele GmbH KLUG-CONSERVATION

with the location in Immenstadt

has reduced the greenhouse gas emissions for 2026
(based on the balance sheet data for 2025)
to 124 tons of CO₂e through own reduction measures and
thereby achieved a key figure of 1,6 tons of CO₂e per employee per year.

Additionally, 230€ were paid into the Klimafonds Allgäu (Allgäu climate fund) for regional sustainability projects.

Kempton (Allgäu), den 15.09.2026

Martin Sambale

Geschäftsführer Energie- und Umweltzentrum Allgäu

Balancing based on the requirements of the "greenhouse gas protocol". The balance sheet includes Scope 1+2 and Scope 3 with the areas of water/paper consumption, residual waste, wastewater, employee catering/mobility, as well as business trips outside the company's own vehicle pool. Pre-chain emissions resulting from the provision of heat energy sources, fuels and electricity are also included in Scope 3.
