

Archival boxes – KS 7

Folding instructions

1. The precut pattern of your folder should be placed on the table with the natural white coloured side facing towards you.
2. Fold all the prefluted edges vertically at a 90 degree angle, once facing upwards and thereafter back again. Set up the side segments of your box right-angled.
3. Bend the double-walled side segments inwards over the edges. Please pay particular attention to the spigot (double-fold) of the side elements.
4. Fold the side segments with double walls emerging. Now insert the side flaps into the slits provided so that they snap in.
5. Fold the box length-wise together and thereby pop the flaps into the opening slits on the side walls.
6. Slide the lid length-wise into the box opening, hence closing the box.

We have manufactured your product with utmost care and accuracy.

Should you still have difficulties in folding your box, please do not hesitate to contact us. We will gladly assist you.

Please visit the following site for the animated version of the folding instructions:
