

Technical data sheet

Polyester nonwoven fabric roll - thermally bonded

Specifications:

Polyester nonwoven fabric roll, 30 gsm, thermally bonded, air-permeable, chemically inert with an extremely smooth surface finish. The release material can be used for many different types of preservation and restoration work, for example like a carrier-support while soaking items in water and as interleaving material.

Sizes ex-stock:

reels - 30 gsm - 100cm/ 50m

Material characteristics:

- 100% polyester
- weight 30 gsm
- thickness 0.045 mm
- air permeability 400 dm³/s m²
